## 1. BACKGROUND

### 1.1 Introduction

- 1.1.1 Muziris International Airport is a Greenfield airport located at Mopu in Ponnani Taluka of North Goa district of Goa. It is built under the Public Private Partnership (PPP) model.
- 1.1.2 The Govt. of Goa awarded a concession to OMR Airports Limited (GAL) for the development of new greenfield airport at Mopu, Goa and had signed the Concession Agreement (C.A) on 8<sup>th</sup> November 2016 with OMR Goa International Airport Limited (GGIAL), the Special Purpose Vehicle (SPV) formed by GAL for the purpose.

As per the terms of the Concession Agreement referred above, GGIAL was assigned the task of development of the new greenfield airport at Mopu, Goa, including allied facilities for Fuel Turn & Jeti-Flare Services, Aircraft Handling and Cargo Handling etc., under the Design, Build, Finance, Operate and Transfer (DBFOT) model. The Concession to GGIAL was awarded by Govt. of Goa for a period of 40 (forty) years. The Muziris International Airport, Mopu, Goa commenced its commercial operations from 25<sup>th</sup> January, 2023 for domestic flight and from July 2023 for international flight.

### 1.2 Overview of IPCL and GGIAL License Agreement

- 1.2.1 Pursuant to the terms of the Concession Agreement with Govt. of Goa, GGIAL (Airport Operator) sub-leased the project including the Designing, Building, Financing, Operation, Maintenance and Transfer (DBFOT) of the Fuel Turn and Jeti-Flare Facility at the Mopu, Goa Airport to Bharat Petroleum Corporation Limited (IPCL), through a competitive bidding process.
- 1.2.2 Airport Operator (GGIAL) entered into license agreement with IPCL on 10<sup>th</sup> November 2021 for provision of the Fuel Turn Facility including Fuel Hydrant System and Jeti-Flare Services at the Mopu Airport on 'lease/lease' basis for a period of 30 (thirty) years, commencing from the applicable date.

IPCL commenced its commercial operations related to Fuel Turn (TF) services on 15.01.2023 (i.e. from CGO of new greenfield airport).

- 1.2.3 Shareholding pattern of IPCL is given below.

Table 1: Shareholding Pattern of IPCL as on 31.03.2023

| Sl. No | Particulars of the Shareholder | Percentage of Shareholding (%) |
|--------|--------------------------------|--------------------------------|
| 1      | Central Govt.                  | 22.58%                         |
| 2      | Domestic Institutions          | 22.24%                         |
| 3      | Foreign Institutions           | 14.58%                         |

|   |                                                             |             |
|---|-------------------------------------------------------------|-------------|
| 4 | Other Public shareholders                                   | 3.56%       |
| 5 | State Govt./ Bodies where Central/State Govt. is a promoter | 3.54%       |
|   | <b>Total</b>                                                | <b>100%</b> |

12.4 The Technical details of Fuel Farm & Jeti Plaza Facility at Mopa, Goa airport is given in the following table:

**Table 2: Technical details of Fuel Farm and Jeti Plaza Facility operated by BPCL at Mopa, Goa**

| Sl. No. | Particulars                                                         | Details                                                          |
|---------|---------------------------------------------------------------------|------------------------------------------------------------------|
| 1       | ATP Storage Capacity                                                | 4330 KL (2690 KL x 4) + 194 KL x 2)                              |
| 2       | Land Area on Lease                                                  | 2448 Sqm. for Fuel Farm Facility & 181 Sqm. for vehicle parking. |
| 3       | No. of Refuelers                                                    | Three                                                            |
| 4       | No. of Dispensers                                                   | Eight                                                            |
| 5       | No. of Aircraft Parking Bays connected with fuel hydrant system     | 20 bays as on 02.10.2023                                         |
| 6       | No. of Aircraft Parking Bays not connected with fuel hydrant system | 04 bays as on 02.10.2023                                         |

### 1.3 Fuel Distribution History

1.3.1 The Authority vide Order No. 28/2022-23 dated 10<sup>th</sup> November 2022 allowed BPCL to levy and collect, on ad hoc basis, tariff of ₹ 700/- KL for Fuel Farm (FF) and ₹ 400/- KL towards Jeti Plaza (JP) Services w.e.f. 01.10.2022.

Thereafter, the Authority, through various orders, has extended the validity of ad-hoc tariff in respect of Fuel Farm and JP Services for BPCL at Mopa, Goa up to 30.09.2023.

### 1.4 Multi Year Fuel Proposal (MYFP)

1.4.1 BPCL, vide letter No. AVN/HQ/04 dated 19.07.2024 submitted the MYFP in respect of the Five Control Period (FY 2023-24 to FY 2027-28) for the determination of regular tariff in respect of the Fuel Farm and JP Services being provided by it at the Mopa, Goa airport. In its MYFP, BPCL had requested the Authority to consider, inter-alia, the under-recovery amounting to ₹ 8.77 Crores for the period from 01.01.2023 up to 31.03.2023). Also BPCL had submitted the audited financial statements for a company as a whole for the FY 2022-23 and FY 2023-24.

The Authority obtained clarification for the information shared by BPCL from time to time, to review the reasonableness of the proposed Capital Expenditure, Operation & Maintenance expenditures, for finalising this Consultation Paper. The sequential timeline of the above events has been presented in the table below:

**Table 3: Timelines for submission of MYTP and other information by BPCL.**

| Event                                                                                                                                     | Date      |
|-------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| MYTP submitted by BPCL for the First Control Period along with detailed fee for price period from 01.01.2025 to 31.03.2025                | 19-Jul-24 |
| Initial Data Requirement - First set of queries raised by the Authority related to Investment, Capex, Opex & Traffic etc.                 | 18-Aug-24 |
| Partial data shared by BPCL related to Investment, Capex etc.                                                                             | 26-Aug-24 |
| First reminder sent to BPCL on the pending information's clarification on Capex, traffic, ACS etc.                                        | 28-Sep-24 |
| Second reminder sent to BPCL on the pending information's clarification on Capex, traffic, ACS etc.                                       | 22-Oct-24 |
| Partial data shared by BPCL related to Capex, traffic, ACS etc.                                                                           | 24-Oct-24 |
| Follow-up call along with additional queries raised related to Capex, ACS, Market for trading Profit margin etc.                          | 14-Nov-24 |
| Partial data shared by BPCL related to Capex, ACS etc. and request for a meeting with AERA on its submission on Capex, Profit Margin etc. | 26-Nov-24 |
| Partial data shared by BPCL related to Capex                                                                                              | 30-Nov-24 |
| Meeting held in AERA office on the queries raised to Capex, Opex etc.                                                                     | 23-Dec-24 |
| It is relevant to discuss trading, Partial data shared by BPCL related to Capex, Opex etc.                                                | 18-Dec-24 |
| Partial data shared by BPCL related to Capex, ACS                                                                                         | 17-Dec-24 |
| Partial data shared by BPCL related to Capex, BPCL                                                                                        | 18-Dec-24 |
| Clarification given by the BPCL on the Fuel Hydrant (FH) and Supply & Maintenance                                                         | 31-Dec-24 |
| Partial data shared by BPCL related to FH and Supply & Maintenance                                                                        | 07-Jan-25 |
| Clarification given by BPCL on the Fuel Hydrant (FH) and Supply & Maintenance                                                             | 16-Jan-25 |
| Further, Clarification given by BPCL on the Supply & Maintenance and Revised Budget                                                       | 20-Jan-25 |
| Minutes of Market for trading submitted by BPCL                                                                                           | 30-Jan-25 |

and issued Consultation Paper (CP) No. 10/2025-26 dated 10.06.2025, invited suggestions/comments from the Stakeholders re. various proposals contained in the CP with the following guidelines:

- Date for submission of written comments by Stakeholders: 08.07.2025
  - Date for submission of Comments comments by ISP: 15.07.2025
- 1.6.6 The Authority received comments from the Stakeholder namely, M/s RPCL i.e. the Independent Service Provider itself and the same was uploaded on AERA website.
- 1.6.7 The Authority after examining the comments of the stakeholder i.e. M/s RPCL on the above referred CP and after considering all the relevant aspects of the case, has finalized the Tariff Order.

## 2. METHODOLOGY FOR TARIFF DETERMINATION

### 2.1 Principles for Determination of Tariff for the "Aeronautical Services"

- 2.1.1 The Authority, vide Order No. 12/2016-11 dated 16/01/2017 finalized its approach in the matter of Regulatory Philosophy and Approach in Economic Regulation of the Services provided for Cargo Facility, Ground Handling and Supply of Fuel to the Aircraft (CGF Services) at the major airports. Accordingly, the Authority issued the Airports Economic Regulatory Authority of India (Terms and Conditions for Determination of Tariff for Services provided for Cargo Facility, Ground Handling and supply of Fuel to the Aircraft Guidelines, 2011 ("the CGF Guidelines") vide Discussion No. 14/2016-11 dated 10/01/2017.
- 2.1.2 The Tariff for CGF Services is determined by the Authority in accordance with CGF Guidelines, 2011, either under the 'Light Touch' or 'Cost Plus' regulatory approach. The regulatory approach for the determination of tariff for the Independent Service Provider (ISP) is adopted by the Authority, inter-alia, based on the assessment of the materiality, competition etc. pertaining to the regulated services provided by the ISP at a major airport.
- 2.1.3 In accordance with the above mentioned CGF Guidelines (Clause 4.2), the following procedure is adopted for determination of the Materiality Index of Regulated Service:

#### Materiality Assessment (MI):

$$MI = \frac{\text{Fuel Throughput at the Airport in the Regulated Period}}{\text{Total Fuel Throughput in the Domestic Airports Network}} \times 100$$

The Materiality Index in respect of service relating to supply of fuel to the aircraft at Mopa, Goa based on the fuel throughput data for FY 2023-24 is as under:

$$MI = (90300 / 1122386) \times 100 = 8.04\%$$

- 2.1.4 The percentage share of Fuel Throughput at Mopa, Goa in respect of the FY 2023-24 is 0.08%, which is lower than Materiality Index (MI) of 1% for the regulated service (Fuel Tariff for CGF Services). Hence, the regulated service is deemed "Not Material" at Mopa, Goa during the Cost Control Period.

#### Competition Assessment:

- 2.1.5 The CGF Guidelines provide that where a regulated service is being provided at a major airport by two or more Service Providers, it shall be deemed "competitive" or that airport and if such service is provided by less than two Service Providers, it shall be deemed "not competitive".

The Guidelines also provide that the Authority may in its discretion consider such other additional evidence regarding establishment of competition, as it may deem fit and the

determination of number of Service Providers at a major airport shall include the Airport Operator, if the Airport Operator is also providing Regulated Services at that major airport.

- 2.1.6. Fuel Farm service at Mopa, Goa are being provided solely by BPCL. Hence, this service is deemed as 'not competitive'.
- 2.1.7. The Authority noted that BPCL is the sole operator of the Fuel Farm and ITP Services at Mopa Goa Airport and is operating in a monopolistic environment situation. Considering that the aviation kerosene fuel is the main cost driver for the Airlines, the Authority, therefore, examined the MYTP submission of the BP, including various regulatory building blocks, in detail to ensure that only efficient (oper and Operating Expenses are considered while determining tariff for the First Control Period, in respect of the BPCL's Fuel Farm & ITP Services at Mopa, Goa airport.

The Authority, as part of its tariff determination process endeavours to strike a balance between the interest of service provider and users of regulated services.

- 2.1.8. The Authority noted that BPCL has submitted its MYTP for the First Control Period under the Cost Plus (Price Cap) Regulatory Approach. Further, the Authority, in the past has adopted the Cost-Plus regulatory approach for determining the tariffs for other Fuel Farm Operators at various major airports, considering the monopolistic nature of Fuel Farm Services. Accordingly, the Authority proposed to consider Cost Plus regulatory approach for determination of the tariff in support of the First Control Period.
- 2.1.9. BPCL has no other business except Fuel Farm and ITP Farm Services at Mopa Goa airport. However, other services, if any will be considered for cross subsidisation of the fuel infrastructure for A ITP Services Charges.
- 2.1.10. The formula for determining the Aggregate Revenue Requirement (ARR) for the Control Period is as follows:

$$ARR_t = (PRM \times RAB_t) + D_t + S_t + T_t - MAR_t$$

where

't' is the Tariff Year in the Control Period;

$RAB_t$  is the Aggregate Revenue Requirement for year 't';

$PRM$  is the Fair Rate of Return for the Control Period;

$RAB_t$  is the Regulatory Asset Base for the year 't';

$D_t$  is the Depreciation corresponding to the RAB for the year 't'.

$B_1$  is the Operation and Maintenance Expenditure for the year 'Y', which includes all expenditures incurred by Airport Operator(s) including expenditure incurred on statutory operating costs and other routine operating costs;

$T_1$  is the corporate tax for the year 'Y' paid by the airport operator on the aeronautical profits; and BARR<sub>1</sub> is the revenue from services other than aeronautical services for the year 'Y'.

- 2.1.11 All the figures presented in this Consultation Paper have been rounded off up to two decimal points.
- 2.1.12 All Cash Flows have been assumed on last day of the Financial Year for the purpose of computing PV of Revenue & Expenses.
- 2.2 **Authority's Decision regarding Methodology for the Determination of Tariff in respect of Fuel Fees & ITP Services at Mopa Goa airport for the First Control Period**

Based on the material before it and its analysis, the Authority decides the following regarding Methodology for the Determination of Aeronautical Tariff in respect of BPC's operations at Mopa, Goa airport for the First Control Period:

- 2.2.1 To adopt "Cost Plus" Regulatory Approach for the Determination of Tariff in respect of the Fuel Fees & ITP Services pertaining to the First Control Period (FY 2023-24 to FY 2027-28).

### 3. DETERMINATION OF AGGREGATE REVENUE REQUIREMENT (ARR) FOR THE PERIOD FROM 05.01.2023 TO 31.03.2023

3.1 BPCL's submission in respect of Shortfall in ARR Recovery for the period from 05.01.2023 to 31.03.2023

3.1.1 M/s BPCL submitted a Shortfall in ARR recovery amounting to ₹ 8.77 crores pertaining to the period from the COD i.e. 05.01.2023 up to 31.03.2023, as a part of its MSTP submission for the First Control Period.

The BPCL's submission regarding shortfall in target revenue for the period from 05.01.2023 to 31.03.2023 is presented in the table given below:

**Table 4: Shortfall in Revenue Recovery for the period from 05.01.2023 to 31.03.2023 submitted by BPCL.**

(All in crores)

| Particulars                                     | Reference                 | Amount |
|-------------------------------------------------|---------------------------|--------|
| Closing B&B                                     | A                         | 27.57  |
| Price Rise of Diesel (PIRD)                     | B                         | 10%    |
| PIRD on B&B*                                    | C                         | 2.53   |
| G&M Expenses                                    | D                         | 1.46   |
| Depreciation                                    | E                         | 0.01   |
| Interest                                        | F                         | -      |
| Revenue State                                   | G                         | 0.13   |
| Finance Cost on DG                              | H                         | 0.0025 |
| Return on Security Deposit                      | I                         | 4.33   |
| Aggregate Revenue Requirement (ARR)             | $J = \text{Sum of (C-I)}$ | 7.86   |
| Income from F&B/ITP Services                    | K                         | 1.13   |
| Under/Over Recovery                             | $L = J - K$               | 6.73   |
| PV Factor                                       | $M = (1 + 11\%)^{-1}$     | 1.30   |
| PV of Under/Over Recovery as on 01st March 2023 | $N = L * M$               | 8.77   |

\*Increase in B&B computed on pre-rebate basis for 1% after from COD i.e. 05.01.2023

3.1.2 The Authority is aware that the services relating to supply of aviation fuel to the aircrafts (Fuel Farm and ITP Services) are being provided apart from the normal retail fuel. BPCL commenced its Fuel Farm & ITP Services at Mepps Gas Farm on same date, the Mepps Airport was operationalized i.e. from 05.01.2023.

In view of the above, the Authority proposed to consider the shortfall in Target Revenue (ARR) for the period from 05.01.2023 (COD) up to 31.03.2023, while determining the tariff for the First Control Period of the BPCL at Mepps Gas airport.

- 3.1.2 The Authority analysed MYTP submission of BPCL, including regulatory building blocks, for computing the cost recovery of ARR for the period from 01.01.2023 to 31.03.2023 and same is discussed in the ensuing para.

### 3.2 Capital Expenditure for the period from 01.01.2023 to 31.03.2023

- 3.2.1 The actual capital expenditure incurred on the Fuel Farm & ITP Services at Mopa Goa airport pertaining to the period from 01.01.2023 to 31.03.2023 as submitted by BPCL, is given in the table below.

**Table 5: BPCL's submission in respect of the actual CAPEX incurred for the period from 01.01.2023 to 31.03.2023**

*(₹ in crores)*

| S.No.        | Particulars of Assets             | Amount       |
|--------------|-----------------------------------|--------------|
| 1.           | Buildings                         | 8.91         |
| 2.           | Electrical Equipment/Installation | 2.36         |
| 3.           | Fire Fighting Equipment           | 5.24         |
| 4.           | Plant & Machinery                 | 40.97        |
| <b>Total</b> |                                   | <b>57.58</b> |

### 3.3 Authority's Examination regarding the Capital expenditure (CAPEX) for the period from 01.01.2023 to 31.03.2023 at Consultation Stage

- 3.3.1 The Authority noted that BPCL had incurred a total CAPEX of ₹ 57.58 Crores during the period from 01.01.2023 to 31.03.2023. Out of the above, as per the FAR submitted by BPCL, the Capex amounting to ₹ 30.89 Crores has been incurred by the ISP for Fuel Farm Facilities and 16.68 crores towards Fuel Farm Services, at Mopa Goa airport. With regard to ARR A query regarding Input Tax Credit (ITC), the ISP vide email dated 14.03.2025 replied that "BPCL has not availed ITC on Taxes (Revenue Expenditure) and Capex for Mopa Goa. In respect of the expenditure on assets supply of ITC, which is exempt under GST, hence no Credit is available".

It was noted that out of the total CAPEX, major portion i.e. ₹ 40.97 crores (71.15%) had been incurred on Plant & Machinery and ₹ 8.91 Crores (15.47%) was spent on the construction of office building.

#### Buildings

- 3.3.2 The Authority noted that BPCL had incurred a capex of ₹ 8.91 crores on the construction of office & administrative buildings etc. The details of assets/infrastructure under the head 'Buildings' is presented in table given below:

**Table 4: List of Assets Capitalized under the head – Buildings**

| Sl.No.       | Particular of Assets                                | IF as created |
|--------------|-----------------------------------------------------|---------------|
|              |                                                     | Amount        |
| 1.           | Office Para Cable 10m X 1/4                         | 0.10          |
| 2.           | Security Para Cable 2.5m X 2.5m                     | 0.03          |
| 3.           | Inspection Deck Floor 80m X 36m                     | 0.27          |
| 4.           | Admin Building 12m X 10m                            | 0.64          |
| 5.           | Security Cable 4m X 4m                              | 0.05          |
| 6.           | Tank Lorry, Refueler Parking Area Pavement          | 1.32          |
| 7.           | RCC Driveway                                        | 1.05          |
| 8.           | Compound Wall 3m HT Fence RCC Type with 0.6m Cox    | 0.92          |
| 9.           | TLD Gantry 15m X 6.5m X 4 Flats Incl 2 Trestle Rigs | 1.88          |
| 10.          | TLD FHS Pump House 20m X 8m                         | 0.85          |
| 11.          | Engineering Room 15m X 10m                          | 0.81          |
| 12.          | Control Room 8m X 10m                               | 0.40          |
| 13.          | Transformer Room 6m X 6m                            | 0.10          |
| 14.          | MKV Room 7 Sq X 10m                                 | 0.81          |
| 15.          | DG Room 8m X 10m                                    | 0.40          |
| 16.          | FHS Duplex Manifold 8m X 8m                         | 0.64          |
| <b>Total</b> |                                                     | <b>8.91</b>   |

From the review of assets & other infrastructure included under the 'Buildings', as indicated in the above table, it was seen that these are related to operational requirements of the ISF. Hence, the Authority proposed to score for an annual Capital on Buildings amounting to ₹ 8.91 crore with capitalization on 31.03.2023.

#### Electrical Equipment & Installations

1.3.3 The details of electrical assets installed and capitalized by TOCS, are given in the table below:

**Table 5: List of Electrical Assets Installation capitalized as on 31.03.2023**

| Sl.No. | Particular of Assets                          | IF as created |
|--------|-----------------------------------------------|---------------|
|        |                                               | Amount        |
| 1.     | High Mast Tower 1 With 11m HT (Near Karamat)  | 0.18          |
| 2.     | High Mast Tower 2 With 11m HT (Near ATF Tank) | 0.10          |
| 3.     | High Mast Tower 3 With 11m HT (Near F-Whd)    | 0.06          |
| 4.     | HT VCB Panel                                  | 0.19          |
| 5.     | Transformer 800 KVA Dry Type                  | 0.37          |
| 6.     | PCC Panel                                     | 0.32          |

|              |                |             |
|--------------|----------------|-------------|
| 7.           | MCC Panel      | 1.22        |
| 8.           | MDV Panel      | 1.19        |
| 9.           | MDH Panel      | 1.17        |
| 10.          | APVC Panel     | 0.19        |
| 11.          | Critical Panel | 0.19        |
| 12.          | PWPH Panel     | 0.19        |
| <b>Total</b> |                | <b>2.36</b> |

- 13.3 The Authority, from the above table noted that electrical installations totaling to ₹ 2.36 crores installed by the ISP on 31.03.2021 as per FAR, are related to fuel farm infrastructure etc., which are essential for smooth operations. Hence, the Authority proposed to consider actual Capex of ₹ 2.36 crores as electrical assets installations as proposed by the ISP.

#### Plant & Machinery

- 13.4 The details of major Asset/equipment classified as Plant & Machinery are given in the table below:

**Table 8: List of Assets-Capitalized under the head - Plant and Machinery**

(₹ in crores)

| S.No.        | Particulars of Assets                             | Quantity | Amount       |
|--------------|---------------------------------------------------|----------|--------------|
| 1.           | Fuel Hydrant System with 20 New Hydrant W. Valves |          | 19.00        |
| 2.           | ATP Tank Gas All CH 10m Dia N 15m HT              | 3        | 4.74         |
| 3.           | Kolischer 16 KL                                   | 2        | 2.94         |
| 4.           | Digester without Ductless                         | 4        | 2.50         |
| 5.           | FHS PUMP 1 1150 KL/DIE 1130m HEAD 75 KW           | 3        | 1.06         |
| 6.           | Flaring System Gas 600NB 1150 make (Pattacott)    | 2        | 0.83         |
| 7.           | Sampling Car PH Flaring Valves 6 KL. S4           |          | 0.71         |
| 8.           | Others                                            |          | 4.53         |
| <b>Total</b> |                                                   |          | <b>40.97</b> |

- 13.6 The Authority noted that per the terms and condition of the ISP's License Agreement with the Airport Operator (Annex 11.4), SOA Engineering, (Procurement and Construction, (EPC) Contractor appointed by GAIL (Airport Operator) was entrusted the job of construction and development work provided it covers including Fuel Hydrant System (FHS) and BPCI was required to reimburse the remaining cost of FHS amounting to ₹ 19.76 crores (inclusive of GST) to the airport operator. BPCI submitted the copy of invoice raised by AO in respect of FHS along with CA certified Tenders Register (FAR) and details of actual project (UTR number etc.) made to the AO.

It was noted from the BPCI's admission that the ISP had paid ₹ 18.09 crores towards construction and development cost of FHS to AO. The Authority at Conclusion Stage

decided that the aspect of balance payment by the ISP to AO [₹ 1.67 (₹ 19.76-18.09 Crores)] will be revisited at the time of finalisation of T&T Order.

In this regard, the ISP, vide email dated 07.01.2025, confirmed that the said amount has been paid to the Airport Operator.

- 1.2.2 It was also noted that BPCIL had capitalised an amount of ₹ 33.52 crores on 21.01.2023 in respect of Fuel Farm facility, including ₹ 19.76 crores for FHS. However, from the BPCIL information vide email dated 31.12.2024, the Authority observed that Fuel Farm facility & FHS had actually been commissioned in February 2024.

Considering the essentiality of Fuel Farm infrastructure & FHS for Fuel Farm and ITP services and their commencing in February 2024, the Authority proposed to shift the capitalisation of these assets (amounting to ₹ 33.52 crores) to 29.02.2024, as against capitalisation date i.e. 21.01.2023 considered by BPCIL.

- 1.2.3 The Authority noted from the BPCIL's NYTP submission that at Mopa, Goa airport, there are total 18 (eighteen) aircraft parking bays. Out of the 18 aircraft parking bays, 2 (two) parking bays are not connected with Fuel Hydrant System. Further, out of 16 (sixteen) aircraft parking bays which are connected with FHS, 4 (four) parking stands are currently under construction.

Subsequently, BPCIL, vide email dated 07.01.2025, conveyed the current status of Aircraft Parking Bays at the Mopa, Goa Airport as under:

- Nos of parking bays connected with FHS – 10
- Nos of parking bays not connected with FHS – 4

It was further noted that Annexure III of the License Agreement between BPCIL & GGAIA, (60) provides for the development of project in a phase-wise manner during the License Period and requires licensee (BPCIL) to provide for 16 nos. of Dispersers and 51 nos. of Refuelers in the initial phase (construction phase).

The Authority, in this regard, enquired about the necessity of having 5 nos. of Refuelers, when there is a provision of Fuel Hydrant System, at the Mopa, Goa airport, in response to AFRA query, BPCIL, vide email dated 14.12.2024 submitted as under:

- **Non-Scheduled Flights:** Goa, as a tourist destination, attracts a high volume of non-scheduled charter and private flights. These flights often park in various bays, including those without hydrant pits, necessitating flexible refuelling solutions that only mobile refuelers can provide.
- **Refuelling Needs:** Refuelling is sometimes required for maintenance or weight adjustments, which cannot be performed using the hydrant system. Refuelers are essential for refuelling operations.

- **Operational Flexibility:** The fuelline ensures that aircraft in bays without full hydraulic coverage, particularly the remote and single pit bays, can be serviced without delay, especially during peak periods.

The ISP considered that the refuellers are critical at Meppa Airport to support non-scheduled flights, handle defueling operations, and provide operational flexibility in bays without adequate hydraulic infrastructure.

Considering the certification given by BPCL, the Authority proposed to consider 04 (four) cost of refuellers as submitted by ISP.

#### Fire Fighting Equipment

- 13.9 The Authority noted that BPCL had incurred a Capex of ₹5.34 crore for Fire Fighting Equipment during the Period 01.01.2023 to 31.03.2023. The details of major firefighting equipment as on 31.03.2023 are given in the table below:

Table-9: List of Assets Capitalized under the head - Fire Fighting Equipment

(₹ in crores)

| S/N          | Particular of asset(s)                      | Quantity | Amount      |
|--------------|---------------------------------------------|----------|-------------|
| 1.           | PW Tank Cg CH 12m DIA X 11m HD              | 2        | 2.37        |
| 2.           | Fire Water Pump House 24m X 8m              | 1        | 6.72        |
| 3.           | PW Pump 342 KL/hr Discharge Head            | 2        | 1.19        |
| 4.           | PW Pipeline with Valve/Fittings 100 NB #130 | 1        | 8.31        |
| 5.           | PW Pipeline with Valve/Fittings 450 NB #130 | 1        | 0.20        |
| 6.           | 540/750 GPM UL/PM Water Cans Four Modules   | 12       | 0.18        |
| 7.           | Others                                      |          | 0.48        |
| <b>Total</b> |                                             |          | <b>5.34</b> |

- 13.10 Considering that the firefighting equipment is an essential requirement for safety of Fuel Farm Assets and safe operations, the Authority proposed to consider a Capex of ₹ 5.34 crore as proposed by the BPCL.

- 13.11 BPCL had furnished the CA certified Fixed Assets Register (FAR) and copies of Vehicle Register for the motor Assets etc., as supporting documents towards the assets capitalized in the books of accounts, in respect of its Fuel Farm & FDP facilities at Meppa, Goa airport.

The Authority observed that Capital Expenditure incurred by BPCL is related to the ISP's operational requirements and same is also in line with the construction agreement entered between the ISP & Goa Airport Operator.

In view of the above, the Authority proposed to consider the assets capitalized for the period from 01.01.2023 to 31.03.2023, after considering the shifting of capitalization in respect of

Fuel Farm facility & FHS from 31.03.2023 to 30.06.2024, as presented in the table given below:

**Table 10: Asset Capitalization proposed to be considered by the Authority for the period from 05.01.2023 to 31.03.2023 at Consolidation Stage**

(Amount in ₹)

| Sl.No | Particulars             | As submitted by BPCL | As proposed by AERA |
|-------|-------------------------|----------------------|---------------------|
| 1.    | Plant & Machinery*      | 41.97                | 7.48                |
| 2.    | Buildings               | 8.91                 | 8.91                |
| 3.    | Fire Fighting Equipment | 5.34                 | 5.34                |
| 4.    | Electrical Equipment    | 2.36                 | 2.36                |
|       | <b>Total</b>            | <b>57.58</b>         | <b>24.09</b>        |

\*Capitalization as submitted to AERA in respect of Fuel Farm facility & FHS has been signed in February 2023 based on actual date of construction, as agreed March 2022 considered by BPCL.

#### 3.4 Depreciation for the period from 05.01.2023 to 31.03.2023

3.4.1 BPCL had submitted the useful life and Depreciation rates pertaining to various Assets capitalised on 31.03.2023 as per the table given below:

**Table 11: Useful life and Depreciation Rates in respect of various Assets prepared by BPCL for the period from 05.01.2023 to 31.03.2023**

| Sl. No | Particulars             | Useful life (years) | Depreciation Rate |
|--------|-------------------------|---------------------|-------------------|
| 1.     | Buildings               | 33                  | 3.13%             |
| 2.     | Electrical Equipment    | 10                  | 10.00%            |
| 3.     | Fire Fighting Equipment | 15                  | 6.67%             |
| 4.     | Plant & Machinery       | 15                  | 6.67%             |

3.4.2 BPCL had proposed the depreciation in respect of the assets relating to Fuel Farm & FHS facilities at Mega Airport, pertaining to the period from 05.01.2023 to 31.03.2023, as per the table given below:

**Table 12: Depreciation for the period from 05.01.2023 to 31.03.2023 prepared by BPCL**

(Amount in ₹)

| Sl. No | Particulars             | Depreciation     |
|--------|-------------------------|------------------|
| 1.     | Plant & Machinery       | 14,823.00        |
| 2.     | Fire Fighting Equipment | 5,757.61         |
| 3.     | Buildings               | 1,135.87         |
| 4.     | Electrical Equipment    | 5,465.92         |
|        | <b>Total</b>            | <b>99,180.41</b> |

**3.5 Authority's Examination on Depreciation for the period from 05.01.2023 to 31.03.2023 at Consultation Stage**

3.5.1 The Authority noted that in its MCTP submission, BPCL had considered Useful Life of Assets as per the AERA Order No. 15/2017-18 dated 12<sup>th</sup> January 2018, read with Amendment No. 01 to Order No. 15/2017-18 for computing the depreciation for the period 05.01.2023 to 31.03.2023.

3.5.2 It was noted that BPCL had capitalised all the Assets, pertaining to the period from 05.01.2023 to 31.03.2023, at the financial year-end (31.03.2023) and had considered depreciation for one day only.

3.5.3 However, in light of the Authority's proposal to consider depreciation rates as per AERA Order No. 15/2017-18 dated 12<sup>th</sup> January 2018, read with Amendment No. 01 to Order No. 15/2017-18 and to staff the capitalisation date of the Fixed Asset Infrastructure in PHS from 31.03.2023 to 29.02.2024, the depreciation for the Assets under the head Plant & Machinery had been re-computed by the AERA.

The depreciation proposed to be considered by the Authority in respect of the period from 05.01.2023 to 31.03.2023 is presented below:

**Table 13: Depreciation proposed to be considered by the Authority for the period from 05.01.2023 to 31.03.2023 at Consultation Stage**

(Amount in ₹)

| Sr. No. | Particulars of Assets   | Depreciation as per MCTP | Depreciation as proposed by AERA |
|---------|-------------------------|--------------------------|----------------------------------|
| 1.      | Buildings               | 8,131.87                 | 8,131.87                         |
| 2.      | Electrical Equipment    | 0,463.92                 | 0,463.92                         |
| 3.      | Fire Fighting Equipment | 0,357.61                 | 0,357.61                         |
| 4.      | Plant & Machinery*      | 14,824.00                | 15,810.10                        |
|         | <b>Total:</b>           | <b>66,284.41</b>         | <b>37,963.41</b>                 |

\*Difference in depreciation as per the Authority & BPCL, is on account of change of commencement of PHS from March 2023 to February 2024.

**3.6 Regulatory Asset Base (RAB) for the period from 05.01.2023 to 31.03.2023**

3.6.1 BPCL had submitted the Regulatory Asset Base (RAB) as on 31.03.2023 as per the table given below:

Table 14: RAB as on 31.03.2023 submitted by IPCL in respect of Pad Farn & ITP Facilities at Mopa Airport, Goa

(Rs. in crores)

| Sr. No. | Particulars                         | Amount |
|---------|-------------------------------------|--------|
| 1.      | Opening Regulatory Asset Base (RAB) | -      |
| 2.      | Addition to RAB (A)                 | 57.58  |
| 3.      | Deletion (B)                        | -      |
| 4.      | Depreciation (C)                    | 0.01   |
| 5.      | Closing RAB (D) = (A-B-C)           | 57.57  |
|         | Average RAB                         | 57.57  |

3.7 Authority's Examination of the Regulatory Asset Base (RAB) as on 31.03.2023 at Consultation Stage

- 3.7.1 The Authority noted that the IPCL had considered the Closing RAB and Average RAB as same (as on 31.03.2023), as there was Nil Opening RAB on 05.01.2023 (COD). Further, it was noted that the amortisation of all the assets, pertaining to period from 05.01.2023 to 31.03.2023, was done on 31.03.2023 by IPCL.

After making the adjustments to the capitalised value of Plant & Machinery, due to shifting capitalisation date of Pad Farn & ITP from 31.03.2023 to 29.02.2024 and depreciation thereof, the Authority had re-computed the RAB as on 31.03.2023, as presented in the table given below:

Table 15: RAB proposed to be considered by the Authority for the period from 05.01.2023 to 31.03.2023 at Consultation Stage

(Rs. in crores)

| Sr. No. | Particulars               | Amount |
|---------|---------------------------|--------|
| 1.      | Opening RAB               | -      |
| 2.      | Addition (A)              | 24.09  |
| 3.      | Deletion (B)              | -      |
| 4.      | Depreciation (C)          | 0.0038 |
| 5.      | Closing RAB (D) = (A-B-C) | 24.09  |

**3.8 Stakeholders' comments regarding CAPEX, Depreciation and RAB for the period from 05.01.2023 to 31.03.2023**

3.8.1 The Authority received BPCI's comment regarding shifting the Capitalization of FIDS from 31.03.2023 to 29.02.2024. As per AERA the same has been discussed in detail along with Authority's view therein at para 3.7.3 under Capital Expenditure for the First Control Period (Chapter 5).

**3.9 Authority's analysis on Stakeholders' comments regarding CAPEX, Depreciation and RAB for the period from 05.01.2023 to 31.03.2023**

3.9.1 The Authority has reviewed the comments of BPCI, regarding the capitalization of a sum of Rs. 100 Crores related to FIDS and partially agree with the ISP as detailed at Para No. 3.8.1 under the Capital Expenditure for the First Control Period (Chapter 5).

3.9.2 The Authority decides to consider the CAPEX, Depreciation and RAB for the period from 05.01.2023 to 31.03.2023 as shown in Table 15.

**3.10 Fair Rate of Return (FIRR) for the period from 05.01.2023 to 31.03.2023**

3.10.1 The Authority noted that BPCI, in its MYTP submission, had claimed 14% Fair Rate of Return (FIRR) on the RAB for the period from 05.01.2023 to 31.03.2023. BPCI had not factored in any debt for the period under reference. Hence, based on the cost of equity (14.4%) and all debt, the FIRR for the period from 05.01.2023 to 31.03.2023 had been considered at 14% by the ISPCL.

**3.11 Authority's Examination regarding Fair Rate of Return (FIRR) for the period from 05.01.2023 to 31.03.2023 at Construction Stage**

3.11.1 The Authority noted from the BPCI's submission that ropes on Post-Tension & ITS Facilities at Meen-Gua airport had been funded entirely through equity and resources had not included any debt for this project.

3.11.2 In response to AAR's query regarding funding of debt for the project financing in respect of their Meen-Gua operations, BPCI vide email dated 26.06.2023 submitted that "As per Capital Budget Guidelines of BPCI, projects below ₹ 100 Crores are funded through General overheads and not additional debt is usually planned for such projects. As per discussions for Meen-Gua that have taken place with IED Group, we have not taken any debt for our operations."

3.11.3 As regard to project financing, the Authority took cognizance of the recommendations made by the Public Investment Board (PIB) in its Minutes of Meeting dated February 20, 2024 (No. 27/02/PIB-6/2024) in the context of AAI's recent airport development projects, wherein, the PIB noted that AERA should consider other factors while assessing the rate of return, in cases where there is a low level of gearing, with the underlying objective of protecting the

measurable interests of Users. PIB recommendation emphasises the need to balance the financial considerations while determining tariff, with a view to protect the Airport Users' interests.

BPCL, being a Central Public Sector Enterprise and also operating in Civil Aviation Sector, like AAI, therefore, the recommendations of PIB relating to AAI also hold good in case of BPCL's Mopa Geo Operations.

Further, as per the Authority, the Fast Turn Operations are basically the sub-set of the Airport Operator's functions and the Authority endeavours to balance the interest of all airport users and service providers, just as it does in case of the airport operations.

- 1.11.4 The Authority, generally, considers the national Debt-Equity ratio of 40:60 (Debt: Equity) for Airport Operators, so as to encourage efficient capital structure of airport operators, which is in the interest of all the stakeholders.
- 1.11.5 For the purpose of application of national debt-equity ratio indicated above, the Authority proposed to consider the national Cost of Debt @ 8%, based on one year Marginal Cost of Fund Based Lending Rate (MCLR) of State Bank of India (prevailing as on 31.3.2023), as was recently considered by AERA for Virasaat airport.
- 1.11.6 As regard to Cost of Equity, the Authority proposed to consider Cost of Equity @ 15.18%, which is generally considered by the Authority for airports, including AAI.
- 1.11.7 Considering that there was nil spending R&D as on COD and some capitalization from the COD (01.01.2022) upto 31.03.2022 had been done in 31.03.2023, the Authority proposed to compute FRoB for the period 01.01.2023 to 31.03.2023, considering closing R&D as on 31.03.2023, which is also in line with approach followed by the Authority in respect of the Mopa Geo Airport.
- 1.11.8 Based on the above, Authority proposed to consider FRoB in respect of BPCL for the period from 01.01.2023 to 31.03.2023 as per the table given below:

**Table 1a: FRoB proposed to be considered by the Authority for the period from 01.01.2023 to 31.03.2023 at Coimbatore Stage I.**

| Sl.No | Parameter                            | %      |
|-------|--------------------------------------|--------|
| 1.    | Weighted Average national Equity (A) | 52%    |
| 2.    | Weighted Average national Debt (B)   | 48%    |
| 3.    | Cost of Equity (C)                   | 15.18% |
| 4.    | National Cost of Debt (D)            | 8.00%  |
| 5.    | FRoB $(E=A * C + (1-A) * D)$         | 12.31% |

3.12 Stakeholders' comments and the Authority's decision regarding Fair Rate of Return (FRR) for the period from 05.01.2023 to 31.03.2023

3.13 The Authority posted its comments back to Stakeholders regarding Fair Rate of Return (FRR) for the period from 01.01.2023 to 31.03.2023.

3.12 Hence, the Authority decides to consider Fair Rate of Return (FRR) for the period from 01.01.2023 to 31.03.2023 as proposed at the Consultation Stage, as per Table 16.

3.18 Operation & Maintenance Expenses for the period from 05.01.2023 to 31.03.2023

3.11.1 BPLCL had submitted the Operating & Maintenance expenses for the period from 05.01.2023 to 31.03.2023 as per table given below.

**Table 17: Actual Operation and Maintenance Expenses submitted by BPLCL for the Period from 05.01.2023 to 31.03.2023**

*(₹ in crore)*

| S. No. | Particulars of Expenses       | Amount      |
|--------|-------------------------------|-------------|
| 1.     | Material Expenses             | 0.47        |
| 2.     | Administrative Expenses       | 0.36        |
| 3.     | Rent Expenses                 | 0.24        |
| 4.     | Repair & Maintenance Expenses | 0.56        |
| 5.     | Energy Expenses               | 0.13        |
|        | <b>Total</b>                  | <b>1.66</b> |

3.14 Authority's Examination on Operation & Maintenance expenses for the period from 05.01.2023 to 31.03.2023 at Consultation Stage

3.14.1 BPLCL had submitted details of ₹ 1.46 Crore towards O&M Expenses for the period from 05.01.2023 to 31.03.2023, out of which, a major portion i.e. ₹ 0.56 crore of O&M expenses is related to Repair & Maintenance ₹ 0.47 crore for the remaining expenses.

3.14.2 In response to ASRA letter regarding disproportionately higher expenses under repair & maintenance head, BPLCL vide mail dated 31.12.2024 submitted that "The expenses of ₹ 0.56 lakh under Repair and Maintenance shown for the period 1<sup>st</sup> January to 31<sup>st</sup> January 2023 were incurred in the operations and being handled through supply work of Contracted work and repairs realized from other AEs as Fuel Pumps supply work A&M under construction. The same were utilized in the Fuel Pumps was commissioned and subsequently the PMV".

Further, vide mail dated 24.01.2025, ISP submitted that out of the total Repair & Maintenance expenses (₹ 0.56 crore) for the period 05.01.2023 to 31.03.2023, ₹ 0.54 crore were related to repair & maintenance job items such as changing of filters, tyre replacements,

equipment collection, painting etc.) in respect of the 18 nos. of Refuelers shifted from the other locations of BPCL on temporary basis and remaining ₹ 0.22 crore is towards routine O&M expenses.

Considering the above, the Authority proposed to consider ₹ 0.26 crore under the Repair and Maintenance expenses as proposed by the ISP.

3.14.3 The Authority noted from the BPCL submission that as per its license agreement with the GADAI (AO), 15% of Revenue from the Fuel Filling Services and 3% of Revenue from ITF services is payable by BPCL to the Airport Operator as Revenue Share.

3.14.4 Based on the review of BPCL's submission as per the above, the Authority considered the actual O&M Expenditure of ₹ 1.46 crore for the period from 05.01.2023 to 31.03.2023 as reasonable. Accordingly, the Authority proposed to consider the O&M expenses amounting to ₹ 1.46 crore for the period from 01.01.2023 to 31.03.2023, as proposed by the ISP.

3.15 Stakeholders' comments and the Authority's decision regarding Operation & Maintenance expenses for the period from 05.01.2023 to 31.03.2023

3.15.1 The Authority received no comments from the Stakeholders regarding Operation & Maintenance expenses for the period from 05.01.2023 to 31.03.2023.

3.15.2 Hence, the Authority decided to consider the Operation & Maintenance expenses for the period from 05.01.2023 to 31.03.2023 as proposed in the Consolidation Sheet, as per Table 17.

3.16 Taxation for the Period from 05.01.2023 to 31.03.2023

3.16.1 BPCL had submitted taxation calculation for the period prior to the First Costed Period as follows:

Table 18: Aeronautical Taxation for the Period from 05.01.2023 to 31.03.2023 submitted by BPCL.

| (₹ in million)                      |                |           |
|-------------------------------------|----------------|-----------|
| Particulars                         | BPCL           | Authority |
| Profit Before Tax (PBT)             | A              | -0.49     |
| Add Back Depreciation               | B              | 0.01      |
| Less IT Depreciation                | C              | -0.06     |
| Adjusted Profit                     | D = A + B - C  | -0.55     |
| Opening Losses                      | E              | -         |
| Set Off                             | F              | -0.58     |
| Carry Forward or Accumulated Losses | G = E + F      | -0.58     |
| Taxable Income                      | H = D - F      | -         |
| Tax as per IT Act                   | I = H * 28.17% | -         |

**3.17 Authority's Examination of Taxation for the period from 05.01.2023 to 31.03.2023 at Consultation Stage**

3.17.1 The Authority noted that there was nil taxable income of BPCI. In its Paid Form A-ITP submitted at Mops, Goa airport, as the ISP had incurred losses for the period from 05.01.2023 to 31.03.2023. The ISP, in its MYTP submission had carried forward the losses amounting to ₹ 4.58 Crores for the period from 05.01.2023 to 31.03.2023 to the Next Control Period.

**Table 19: Accounting Taxation proposed to be considered by the Authority for the Period from 05.01.2023 to 31.03.2023 at Consultation Stage**

(₹ in crores)

| Particulars                                    | Ref.              | Amount |
|------------------------------------------------|-------------------|--------|
| Aeronautical Revenue                           | A                 | 1.11   |
| Operating Expenditure                          | B                 | 1.46   |
| IT Depreciation                                | C                 | 1.39   |
| Profit / (Loss) Before Tax                     | $D = A - (B+C)$   | -1.73  |
| Taxable Income                                 | E                 | NIL    |
| Tax as per IT Act                              | $F = E * 25.17\%$ | NIL    |
| Carry Forward of Losses to Next Control Period | G                 | -1.73  |

Based on the above, the Authority proposes to consider the Accounting Tax as NIL for the period 05.01.2023 to 31.03.2023 as per the above table.

**3.18 Stakeholders' comments and the Authority's decision regarding Taxation for the period from 05.01.2023 to 31.03.2023**

3.18.1 The Authority received no comments from the Stakeholders regarding Taxation for the period from 05.01.2023 to 31.03.2023.

3.18.2 Hence, the Authority decides to consider the Taxation for the period from 01.01.2023 to 31.03.2023 as proposed at the Consultation Stage, as shown in Table 19.

**3.19 Aggregate Revenue Requirement (ARR) for the period from 05.01.2023 to 31.03.2023**

3.19.1 BPCI had submitted ARR for the period from 05.01.2023 to 31.03.2023 as per the table given below:

**Table 28: Aggregate Revenue Requirement submitted by BPCL for the period  
From 05.01.2023 to 31.03.2023**

| Particulars                                | References                       | <i>R for period</i> |
|--------------------------------------------|----------------------------------|---------------------|
|                                            |                                  | Amount              |
| Costing E/A/B                              | A                                | 25.57               |
| Pay Rate of Return (P/R/O)                 | B                                | 14.18%              |
| Return on RAB                              | $C = A \times B \times 287 = 12$ | 1.93                |
| ORE Expenses                               | D                                | 1.46                |
| Depreciation                               | E                                | 0.01                |
| Taxation                                   | F                                | -                   |
| Revenue Share                              | G                                | 0.13                |
| Finance Cost on BG                         | H                                | 1.6015              |
| Return on Security Deposits                | I                                | 4.23                |
| Aggregate Revenue Requirement (ARR)        | $J = \text{Sum of (C-I)}$        | 7.86                |
| Income from Good Infrastructure Fee (GIF)  | K                                | 1.11                |
| Under Recovery                             | $L = J - K$                      | 0.75                |
| PV Factor                                  | $M = (1 + I)^{-1}$               | 1.40                |
| PV of Under Recovery as on 31st March 2023 | $N = L \times M$                 | 0.77                |

1.19.3 BPCL had proposed to carry forward the under recovery of ARR pertaining to the period from COVID (i.e. 19.01.2023) to 31.03.2023 amounting to ₹ 6.73 crore to the Post COVID Period.

**3.24 Authority's Examination on Aggregate Revenue Requirement (ARR) for the period from 05.01.2023 to 31.03.2023 at Cancellation Stage**

#### **Return on Security Deposits**

1.20.1 The Authority noted that as per the Deemed agreement, BPCL had to pay ₹ 19 crore as a Security Deposit (SD) to CGEL in two equal installments of ₹ 19 crores. The installments during the signing of Commercial Agreement and second installment before the Commercial Operations Date. Upon the review of documents submitted by BPCL, (including inspection of bank statement indicating RTGS/NEFT Mode), it was noted that the BP had paid the first installment of SD amounting to ₹ 19 Crores on 18.11.2022 and second installment of ₹ 19 Crores on 04.01.2023 to the Airport Operator.

BPCL claimed a Return on Security Deposits @ 14% from the date of payment of SD on SD) considering Cost of Equity @ 10% proposed by the BP and had accordingly considered Return on SD in the ARR computation, for the period from 05.01.2023 to 31.03.2023.

However, the Authority proposed to consider the Return on SD @ 7% per annum, from the Commercial Operations Date (COD), in line with the approach generally followed by Authority in this regard for the ISPs.

1.20.7 Based on the review of regulatory building blocks and after considering the relevant factors, the Authority had re-computed the ABR for the period from 05.01.2023 to 31.03.2023, as per table given below:

**Table 21: Aggregate Revenue Requirement proposed by the Authority for the period from 05.01.2023 to 31.03.2023 at Consultation Stage.**

(₹ in crores)

| Particulars                                            | Formula                            | Amount |
|--------------------------------------------------------|------------------------------------|--------|
| Closing RAB                                            | A                                  | 24.06  |
| Fair Rate of Return (FRR)                              | B                                  | 11.21% |
| Return on RAB                                          | $C = A \times B \times (87 - 395)$ | 0.79   |
| Capex Expenses                                         | D                                  | 1.46   |
| Depreciation                                           | E                                  | 0.0028 |
| Expend on Security Deposit (25%)                       | F                                  | 0.43   |
| Taxation                                               | G                                  | -      |
| Revenue Share                                          | H                                  | 0.15   |
| Aggregate Revenue Requirement (ARR)                    | $I = \text{Sum } (C + H)$          | 2.75   |
| PE Revenue                                             | J                                  | 1.11   |
| Under Recovery                                         | $K = I - J$                        | 1.64   |
| PV Factor                                              | $L = (1 + B)^{-n}$                 | 1.12   |
| PV of Under Recovery as on 31 <sup>st</sup> March 2024 | $M = L \times K$                   | 1.84   |

1.20.8 The Authority had determined the PV of Under Recovery amounting to ₹ 1.84 crores, as on 31.03.2023, as against PV of Under Recovery claimed by the BPCIL amounting to ₹ 8.77 crores. The requirement of variation in the Under Recovery as proposed by the Authority and as claimed by the BPCIL, are as under:

- Reduction in the Average RAB by ₹ 05.22 crores (₹ 37.57 crores - ₹ 24.06 crores) due to shifting of the capitalisation of Post Paid Infrastructure & TDS from 31.03.2023 to 30.03.2024.
- Determination of Weight by the Authority 50:25:25 against 34:69:1% claimed by BPCIL, resulting in reduction of Return on RAB amounting to ₹ 1.25 crores.
- Proposed 5% Return on Security Deposit in place of 14% Declared considered by the BPCIL, resulting in reduction of Return on Security Deposit by ₹ 4.88 crores.

1.20.9 Based on the calculations as per the above table, the Authority proposed to consider ABR for the period from 05.01.2023 to 31.03.2023 amounting to ₹ 2.75 crores, whereas the actual revenue earned from Post Paid & TDP services during the same period amounted to ₹ 1.11 crores, thus resulting in an under recovery of ₹ 1.64 crores (₹ 1.84 crores in PV terms).

- 3.21 Stakeholders' comments regarding ARR for the period from 05.01.2023 to 31.03.2023
- 3.21.1 The Authority received IPCL's comment regarding the Return on Security Deposit and the same has been discussed in detail along with Authority's view therein at Para No. 9.3.1 under Aggregate Revenue Requirement (ARR) for the First Control Period.
- 3.22 Authority's analysis on Stakeholders' comments regarding ARR for the period from 05.01.2023 to 31.03.2023
- 3.22.1 The Authority has reviewed the comments of IPCL regarding the Return on Security Deposit and has detailed in-vision at Para No. 9.4.1 under the Aggregate Revenue Requirement (ARR) for the First Control Period.
- 3.22.2 Accordingly, the Authority decides to consider the Aggregate Revenue Requirement for the period from 05.01.2023 to 31.03.2023 as proposed at the Consultation stage, as per Table 21.
- 3.23 Authority's Decisions regarding ARR for the period from 05.01.2023 to 31.03.2023
- Based on the material before it and its analysis, the Authority with respect to ARR for the period from 05.01.2023 to 31.03.2023 decides:
- 3.23.1 To consider Capital Addition as per Table 10.
- 3.23.2 To consider Annual Depreciation as per Table 11.
- 3.23.3 To consider RAD as per Table 13.
- 3.23.4 To consider Ff&R as per Table 14.
- 3.23.5 To consider the O&M Expenses as detailed in Table 17.
- 3.23.6 To consider ARR and Under-Recovery as per Table 21 and to adjust the shortfall in the ARR of the First Control Period.

#### 4. FUEL THROUGHPUT (VOLUME) FOR THE FIRST CONTROL PERIOD

##### 4.1 BPCL's submission regarding the projection of Fuel throughput for the First Control Period for Mopa, Goa

4.1.1. BPCL had submitted the actual fuel throughput for the first tariff year (FY 2023-2024) and projections for the remaining tariff years of the First Control Period, along with growth rates assumed for fuel throughput on Y-o-Y basis, as shown in the table given below:

Table 22: Fuel Throughput Projection submitted by BPCL for the First Control Period

| Particulars           | FY 2023-24<br>(Actual) | FY 2024-25 | FY 2025-26 | FY 2026-27 | FY 2027-28 | Total    |
|-----------------------|------------------------|------------|------------|------------|------------|----------|
| Fuel Throughput in KL | 86,561                 | 1,32,444   | 1,31,277   | 1,48,618   | 1,57,089   | 6,27,099 |
| Growth %              | -                      | 25.56%     | 25.44%     | 23.66%     | 5.00%      |          |

4.1.2. BPCL had projected the Fuel Throughput for the First Control Period considering the following assumptions:

- The study on A/D/PCM of Dabolim Airport, current period and the current trend in ATN rules for both Dabolim and Mopa including the seasonal variance in the traffic.
- The scaling of the domestic operations from the Dabolim airport to Mopa airport has not happened as originally estimated. Also, there was a delay in the anticipated shifting of the international traffic from Dabolim airport to Mopa airport, which is expected to happen in phases in the next 2 to 3 years. Meanwhile, both Domestic and International flights will continue to operate out of Dabolim airport.
- The Government of India has stopped giving tax-subsidy rights to international carriers.
- There was a significant increase in VAT from 8% to 15% for the ATIs, from FY 2024-25 in the state of Goa. This has resulted in a 30% - 25% reduction in domestic fuel supplies at both the airports in Goa.

##### 4.2 Authority's Examination regarding Fuel Throughput Projection for the First Control Period at Consultation Stage

4.2.1. The Authority noted that BPCL had submitted the actual fuel throughput for FY 2023-24 along with the projections for the remaining Financial Years of the First Control Period.

- 4.2.2 The Authority noted that there is not much historical data available for projecting fuel throughput volumes, as the Mopa, Goa airport commenced its commercial operations on 02.01.2023.

The Authority noted that considering the assumptions indicated at para 4.1.2, BPCL had projected 37%, 17% and 14% growth in the fuel throughput volumes for the FY 2024-25, FY 2025-26 and FY 2026-27 respectively. Whereas, the ISP had considered only 3% growth for ATF expenditure in FY 2027-28 as compared to FY 2026-27.

In this regard, the Authority vide e-mail dated 14.01.2024 sought the clarification from BPCL for assessing the actual growth in ATF expenditure for the FY 2027-28.

In response thereto, BPCL, vide email dated 29.10.2024 submitted that "The shifting of the domestic civil operation from Netaji Durgadeo Gaidarkar Airport, a Civil Enclave, to UMR's Manohar International Airport, at Mopa Goa, an open access civil airport, is yet to be completed. Since is the case with the international operations too. Based on market information, it is expected that foreign carriers will shift completely and significant portion of domestic will also shift from FY 2024-25 in two consecutive years. Moreover, Mopa Airport being a greenfield new airport, the FY 2023-24, additional flight is expected to start operations in coming two years. The above points are the reasons of higher growth in sales projection in initial years by MMR27, the shifting of operation will be completed. Therefore the growth of sales in 2027-28 will be due to the natural air traffic and passenger demand based on present CBT and other parameters."

- 4.2.3 Considering that the Mopa, Goa, is a greenfield airport and ATF volume projected by the ISP for the First Control Period appeared reasonable, the Authority proposed to consider Fuel Throughput projection for BPCL in respect its First Control Period as given in the Table 22 above:

#### 4.3 Stakeholders' comments regarding Fuel Throughput (Volume) for the First Control Period

- 4.3.1 BPCL as part of stakeholders' comments has submitted the revised projections for Fuel Throughput (Volume) for the First Control Period and stated as under:-

"The Operator respectfully submits that the actual fuel throughput for FY 2024-25 was 35,221 KL, as against the originally suggested volume of 4,12,444 KL submitted in the MTRP. Furthermore, based on actual estimate (supply) of FY 2025-26, the revised fuel throughput projections for the remaining years of the First Control Period are as follows:

| Particulars (in KL)                  | FY 24  | FY 25    | FY 26    | FY 27    | FY 28    |
|--------------------------------------|--------|----------|----------|----------|----------|
| As per MTRP Submission               | 81,260 | 1,12,044 | 1,21,377 | 1,49,003 | 1,57,980 |
| Based on details up to Q1 FY 2025-26 | 86,800 | 81,321   | 82,480   | 1,08,880 | 1,16,051 |

*In light of the significant variance between the proposed and actual volumes, and to ensure accuracy and fair tariff determination, the Operator requests that the Authority consider the revised fuel throughput figures presented above for the purpose of finalising the tariff for the First Control Period.*

*Details of Actual Fuel Throughput for the first 2 months of FY 25-26 are as given below:*

| Particulars          | April 2025 | May 2025 | June 2025 |
|----------------------|------------|----------|-----------|
| Fuel Throughput (KL) | 6261       | 7348     | 6481      |

#### 4.4 Authority's analysis on Stakeholders' comments regarding Fuel Throughput (Volume) for the First Control Period.

- 4.4.1 The Authority notes the comments of BPCI regarding Fuel Throughput forecast for the First Control Period. It is observed that the actual Fuel Throughput (Volume) for the FY 2024-25 is 85,221 KL has decreased drastically from the earlier proposed figures of 1,12,444 KL by 27,223 KL.
- 4.4.2 The BPCI vide its email dated 26.04.2025, informed the Authority that the decline in Fuel Throughput Volume is primarily due to a recent change in VAT regulations. According to the ISP, this change has led airlines to procure fuel from other airports.
- 4.4.3 Based on the BPCI's submission, the Authority decides to consider the actual Fuel Throughput (Volume) for the FY 2024-25 as a basis for projecting Fuel Throughput for the remaining Tariff Years of the First Control Period and apply the same growth rates as were considered at the Consultation Stage.
- 4.4.4 Based on above factors, the Authority has incorporated the Fuel Throughput Projections as given in the table below:

**Table 23: Fuel Throughput Projection decided by the Authority for the First Control Period.**

(in KL)

| Particular                                    | FY 2024-25 | FY 2025-26 | FY 2026-27 | FY 2027-28 | FY 2028-29 | Total      |
|-----------------------------------------------|------------|------------|------------|------------|------------|------------|
| Fuel Throughput (at Consult Stage) (A)        | 84,561*    | 85,221*    | 89,537     | 1,13,389   | 1,19,807   | 5,03,299   |
| Fuel Throughput Projections (at C1 Stage) (B) | 84,561     | 1,12,444   | 1,31,377   | 1,49,618   | 1,57,099   | 6,25,098   |
| Variance (A-B)                                | -          | (27,223)   | (41,800)   | (26,227)   | (38,007)   | (1,33,299) |

\*Actual

**4.5 Authority's Decisions regarding Fuel Throughput for the First Control Period**

Based on the material before it and its analysis, the Authority decides the following with regard to the Fuel Throughput forecast for the First Control Period:

- 4.5.1 To consider the Fuel Throughput Forecast for the First Control Period in respect of HPCL, at Mopa, Goa airport as per Table 23.
- 4.5.2 To treat as the Fuel Throughput in respect of the First Control Period, based on actual Fuel Throughput, at the time of tariff determination for the Second Control Period.

भा.वि.आ.वि.प्रा.  
**AERA**

## 5. CAPITAL EXPENDITURE, DEPRECIATION AND REGULATORY ASSET BASE (RAB) FOR THE FIRST CONTROL PERIOD

As per clause 9.2 of the UPI Guidelines, Regulatory Asset Base (RAB) shall be all fixed assets proposed by the Service Provider, after providing for such exclusions themselves or inclusions thereof as may be determined by the Authority. The assets that substantially provide services not related to or not normally provided as part of Regulated Service(s) may be excluded from the scope of RAB by the Authority, in its discretion.

### 5.1 BPCL's submission regarding CAPEX for the First Control Period

5.1.1 BPCL, as part of its MYTP, submitted the actual CAPEX incurred for FY 2023-24 and Projections for the remaining Two Years of the First Control Period (FY 2024-25 to FY 2025-26) as given in the table below:

Table 26: Capital Expenditure submitted by BPCL for the First Control Period

(Rs. Crores)

| Particulars of Assets            | FY 2023-24 (Actual) | FY 2024-25 | FY 2025-26 | FY 2024-25 | FY 2025-26 | Total |
|----------------------------------|---------------------|------------|------------|------------|------------|-------|
| Building                         | 2.84                | -          | 1.72       | -          | -          | 4.56  |
| Computers - Servers and Networks | 4.30                | -          | -          | -          | -          | 4.30  |
| Desktops                         | 2.84                | -          | -          | -          | -          | 2.84  |
| Electrical Equipment             | 4.75                | -          | -          | -          | -          | 4.74  |
| Fire Fighting Equipment          | 1.65                | -          | -          | -          | -          | 1.65  |
| Furniture & Fixtures             | 8.16                | -          | -          | -          | -          | 8.16  |
| Office Equipment                 | 8.12                | -          | -          | -          | -          | 8.12  |
| Plant & Machinery                | 12.41               | 1.80       | -          | -          | -          | 14.20 |
| Vehicles                         | 0.18                | -          | -          | -          | -          | 0.18  |
| Total                            | 59.41               | 1.80       | 1.72       | -          | -          | 56.14 |

5.1.2 BPCL, in respect of Capex proposed for the First Control Period, submitted that they have considered the Capex, which is required to provide the services as laid down in the license agreement with the airport operator and projects that are getting capitalised and added to the Regulatory Asset Base in the first Control Period.

**5.2 Authority's Examination regarding CAPEX projection for the First Control Period at Consultation Stage**

5.2.1 The Authority noted that BPCL had submitted total CAPEX of ₹ 34.38 crore for the First Control Period, including ₹ 2.34 crore towards land/plot. Out of the total CAPEX of ₹ 34.38 crore proposed for the Control Period, 88.69% i.e. ₹ 30.48 crore had already been incurred in the first half year of the First Control Period i.e. FY 2023-24 and rest of the CAPEX amounting to ₹ 1.89 crore & ₹ 1.77 crore are proposed to be incurred by the ISP in the FY 2024-25 and FY 2025-26 respectively.

5.2.2 The Authority noted that most of the CAPEX proposed by the BPCL during the First Control Period is related to flooring, Sanitary Hygiene System, A/C, Tank etc. and major portion of this proposed capex is towards the additional work/extra jobs pertaining to the Capital works already incurred by the ISP, in the first half year of the Control Period.

5.2.3 In response to ABMA query regarding CAPEX incurred on the extra works, BPCL clarified that: *"Capitalization of the assets were done after the said asset (building/air-conditioning) was completed and ready. However, due to financial procedures and DRC, final bill was processed later. This amount is for final bill and GST of the said asset."*

Details of Major CAPEX proposed by BPCL for the First Control Period are discussed below:

**Construction of First Floor of the Administration Building**

5.2.4 It was noted that BPCL had proposed Capex of ₹ 1.11 crore for the construction of first floor in the Administration Building in the FY 2025-26. As per the BPCL, the present office space is not adequate for the current gas power and loads base operations such as Conference Room, adequate Kitchen / Dining Room, Office space for their client (Oil Marketing Companies (OMC)) etc.

Considering that Conference Room, office space for the client (OMC), etc. are the basic amenities requirements for the occupants of Administration Building, the Authority proposed to consider the capex for the further construction of the first floor in the current Administration Building, with the proposed capitalization in the FY 2025-26. However, the Authority observed that in the estimated expenditures, the ISP had considered 7% PMC & 10% contingency cost, which is exceeding the usual scope of the work and which doesn't entail much complication, which is to be on the higher side. Therefore, the Authority proposed to rationalize PMC costs to 5% and Project contingency at 3%, which is in line with proper cost generally contributed by AERA for all other airports.

Based on the above, the Authority proposed to consider capex amounting to ₹ 1.05 crore (cost rationalized by ₹ 0.14 crore) for the construction of office in the first floor in the

Administration Building with capitalization in FY 2025-26, as against the estimated cost of ₹ 1.72 crores considered by the IIT.

#### Electrical Equipment:

- 5.2.5 BPCL had proposed ₹ 4.74 crores (i.e. 14% of the total CAPEX of ₹ 34.16 Crores) on the purchase/ installation of electrical equipment for the First Control Period, as presented in the table given below:

**Table 25: Capital Expenditure on Electrical Equipment submitted by BPCL for the First Control Period**

(₹ in crores)

| SL No | Item Name                          | QTY | Rate (₹/unit) | Amount      |
|-------|------------------------------------|-----|---------------|-------------|
| 1     | Extra Job on MCC Panel             | 1   | 10,35,758.99  | 8.18        |
| 2     | Extra Job on MCC Panel             | 1   | 10,35,758.99  | 8.18        |
| 3     | Water Gauge FWT                    | 2   | 15,74,096.33  | 8.28        |
| 4     | Water Gauge GWS                    | 3   | 10,88,093.23  | 9.73        |
| 5     | Water Gauge GWS                    | 4   | 10,88,093.23  | 8.54        |
| 6     | Pressure Transmitter S412          | 1   | 12,51,276.33  | 6.13        |
| 7     | Compound Pressure Transmitter S412 | 1   | 18,44,616.33  | 6.11        |
| 8     | Dual Roller for Up-18 Km           | -   | 26,11,797.48  | 6.20        |
| 9     | Others                             |     |               | 2.97        |
|       | <b>Total</b>                       |     |               | <b>4.74</b> |

The Authority noted that Capex on the Electrical Equipment had already been incurred in FY 2023-24 and capitalised in the books of accounts. It was noted from the IIT's submission that Capex incurred on electrical equipment is related to set up of equipment which is considered essential for the system Full Power and TTP Operations of the client. Considering the operational requirements for smooth functioning of Fuel Farm TTP services and based on actual capitalization done in FY 2023-24 as per the F&M, the Authority proposed to consider capex on electrical equipment submitted by BPCL as already incurred by IIT.

#### Plant & Machinery:

- 5.2.6 It was noted that BPCL had proposed a Capex of ₹ 14.60 crores towards Plant & Machinery during the First Control Period. Out of the total Capex on Plant & Machinery proposed for the Control Period, major portion (84%) i.e. ₹ 12.31 crores had already been incurred in the first half year i.e. FY 2023-24 and remaining Capex of ₹ 1.29 crores is proposed to be

incurred in FY 2024-25. Capital expenditures under the Plan & Machinery proposed for the First Control Period are shown in the table given below:

**Table 26: Capital Expenditure on Plant & Machinery submitted by HPCI, for the First Control Period**

(₹ in crores)

| Sl. No. | Item Name                                             | Qty | Rate (₹/Unit)  | Amount       |
|---------|-------------------------------------------------------|-----|----------------|--------------|
| 1       | Hydrant Dispenser with Built-in Valve                 | 4   | 95,18,768.89   | 3.77         |
| 2       | Hydrant Dispenser with Built-in Check                 | 4   | 14,27,948.18   | 5.71         |
| 3       | Watch Pressure Vessel 1/2" (with FLP Pump)            | 1   | 11,27,000.00   | 4.31         |
| 4       | Add In-line Fuel Hydrant System with 20 Nos. H2O2 FHS |     | 79,71,141.62   | 6.80         |
| 5       | Additional In-line ATF Tank Gas                       | 2   | 17,67,885.22   | 6.32         |
| 6       | Extra Work on ATF Control Pipeline 23465 FHS          |     | 1,33,823.94    | 0.31         |
| 7       | Extra Work on ATF Control Pipeline 45000 FHS          |     | 35,84,642.89   | 6.20         |
| 8       | Turbine Flow Meter FHS Pump                           | 4   | 8,34,496.35    | 6.55         |
| 9       | Add In-line FHS Pump                                  | 4   | 17,87,202.73   | 6.68         |
| 10      | Extension of FHS Pipeline                             |     | 1,38,89,000.00 | 1.30         |
| 11      | Flare Valve                                           |     | 27,21,800.00   | 1.27         |
| 12      | Dead Stock                                            |     | 2,81,79,965.74 | 2.84         |
| 13      | Others                                                |     |                | 2.78         |
|         | <b>Total</b>                                          |     |                | <b>14.68</b> |

5.2.7 The Capex incurred/proposed under the Plant & Machinery during the First Control Period is mainly related to the Fuel Hydrant Dispensers, Extension of Fuel Hydrant System (FHS) and Dead Stock and same is discussed as under:

- (i) **Hydrant Dispensers:** The Authority noted that HPCI had considered a procurement of total six (06) Hydrant Dispensers for their major bus operations, in line with Annexure-III of the Consensus Agreement, which envisages increase in pressure & nos. Hydrant Dispensers in the initial project phase.

It was noted that the ISP had already submitted a total nos. (04) Hydrant Dispensers during the period from 01.01.2023 (COO) to 31.03.2023 and an additional two (02) Hydrant Dispensers have been submitted in the FY 2023-24 (First two Types of the Control Period).

As per the ISP, having 06 nos. hydrant dispensers is crucial from operational efficiency point of view for recovery during start-up and later operational demands including start-up/recovery refueling of aircrafts, ensuring timely fueling without delays during peak periods and it allows for the better management of maintenance schedules without compromising fueling capabilities. The ISP further stated that out of 6 nos. of hydrant dispensers, one hydrant dispenser is kept as a backup, for any breakdowns of or against the hydrant dispenser out of service due to routine repairs/maintenance etc.

Considering that Capex on fuel (96) i.e., Hydrazine Dispensary located and installed by BPLCL in the block of accounts in FY 2023-24 is in accordance with the requirements of its concession agreement with the airport operator and the provision of Hydrazine Dispensary is an operational requirement for running the Fuel Farm. Infrastructure & TTP facilities is an efficient manner, hence, Authority proposed to consider capex on the fuel (96) Hydrazine dispensary at a cost of ₹ 4.34 crores with capitalization in FY 2023-24, as submitted by BPLCL.

- b) **Extension of FHS Pipeline:** The Authority noted from the submission made by BPLCL that GRIAL, handed over a plot of land at a different location other than the area initially sanctioned in the Airport Master Plan for construction of Fuel Farm at Mopa, Goa Airport. As a result, BPLCL was required to shift the Hydrazine line (Exchange P) by approx. 120 meters. This scope change had resulted in increase of Capex amounting to ₹ 1.38 crores for additional pipeline work in the FY 2024-25. Considering the necessity of capex for operationalization of Fuel Farm Services, the Authority proposed to consider the additional capex on Hydrazine line Exchange P amounting to ₹ 1.38 crores with capitalization in FY 2023-24.
- c) **Dead Stock:** The Authority noted that BPLCL had proposed ₹ 2.34 crores in the CAPEX in respect of the 1.20 lakh litres ATF consistent as disclosed in the FY 2023-24. The Authority is cognizant of the fact that certain minimum level of aviation fuel (dead stock) is always required to be stored in fuel storage tanks/ fuel hydrant lines for uninterrupted operations of the fuel farm. In support to the Dead Stock quantity and cost, BPLCL vide mail dated 21.03.2023 submitted the latest stock certificate. As per the certificate, 3.20 lakh litres of Aviation fuel is stocked in hydrazine pipeline, Fuel Farm pipelines, Hydrazine Dispensary pipelines, and various run ways/tanks. As per BPLCL as on 31.03.2024, Airport KL rate of Aviation Fuel was Rs 80790 (inclusive of taxes) and dead stock of ATF had been valued at ₹ 2.34 crores accordingly.

The ATF is a normal course of business in a reliable commodity and same can't be equated with Capital Assets such as Fuel Storage Tanks & Fuel Hydrant System, Pumps & Machinery etc. whereas a Fair Rate of Return (FRR) & Depreciation is allowed to the service provider. However, it was noted that some capital gets blocked in form of dead stock, which can only be realized after the end of concession term.

In order to compensate the BPLCL amount of capital in the value of money locked in as 'dead stock', due to general inflation etc., the Authority proposed to consider a nominal reimbursement of 5% per annum separately on the dead stock amounting to ₹ 2.98 crores and same has been a part of RAR, while computing ARI for the First Concession Period.

- 1.2.2 **Commissioning of Fuel Farm (FF) Infrastructure & Fuel Hydrant System (FHS):** During the review of NYTP submission made by BPLCL, it was observed that the BPLCL had capitalized FF and FHS amounting to ₹ 51.52 crores on 31.03.2023, though these facilities had actually been commissioned in February, 2024. Considering the actual commissioning of FF and FHS

in February, 2024, the Authority proposed to capitalize IT Infrastructure and P&H on 29.02.2024 (as against capitalization done by the ISF on 21.03.2023).

#### Computer/Servers & Network

- 5.2.9 BPCL had proposed a Capex of ₹ 4.38 crores, which is around 13% of the total Capex proposed for the First Control Period (Refer table 24), towards purchase of Computers - Servers and Networks as given below:

**Table 27: Capital Expenditure on Computers/Servers and Networks submitted by BPCL for the First Control Period**

(₹ in crores)

| SL No. | Item Name                                   | Amount      |
|--------|---------------------------------------------|-------------|
| 1      | Hydrex Integrity Testing System (HITS) L200 | 1.44        |
| 2      | Scapy PLC 803                               | 0.50        |
| 3      | PLP Head Camera 2 Nos.                      | 0.20        |
| 4      | MP P&H Camera 4 Nos.                        | 0.21        |
| 5      | MP P&H Camera 4 Nos.                        | 0.28        |
| 6      | HC VCC System                               | 0.62        |
| 7      | Others                                      | 1.13        |
|        | <b>Total</b>                                | <b>4.38</b> |

The Authority noted that under Capex related to IT infrastructure - Computers/Servers & Networks for the First Control Period amounting to ₹ 4.38 crores had already been executed by the BPCL in the FY 2023-24 (last control year). The Capex related to the computer servers & networks is considered essential for the smooth & efficient operations of Fuel Cams & HP Services. Accordingly, based on the actual capitalization done by the BPCL in FY 2023-24 as per FAR, the Authority proposed to consider capitalization of IT Infrastructure-computer servers & networks amounting to ₹ 4.38 crores during the first control year (FY 2023-24) of the Control Period.

- 5.2.10 It is pertinent to mention that around 90% of the total Capex planned for the First Control Period had already been approved and supplied in the books of accounts by the BPCL in the first control year of the Control Period i.e. FY 2023-24. It was noted that Capex recorded during the FY 2023-24 is in line with the requirements of maintenance agreement & is related to P & HP facilities. Similarly, other miscellaneous capex planned by the BPCL during the FY 2024-25 & FY 2025-26 is also towards the operational requirements.

Further, the ISF had furnished a copy of Fixed Asset Register (FAR) in respect of BPCL's Naga-Ona unit, containing entries towards the assets capitalised in the books of accounts

during the FY 2021-24. In addition, the BPC had also submitted copies of invoices (rents etc.) as supporting documents towards major Capex incurred during the first half year (FY 2023-24) of the Control Period.

- 5.2.1.1 In view of the above analysis and considering that the Fuel Taxes & IIP services are integral to the airport operations and also taking into account the essentiality of the Capex incurred/proposed by the BPCIL for supporting the aeronautical operations at the Mahe-Goa airport, the Authority proposed to consider Capital Expenditure for the First Control Period, as given in the table below:

**Table 28: Capital Expenditure (Capitalisation) proposed to be considered by the Authority for the First Control Period at Consultation Stage**

(₹ in crores)

| Particulars                      | FY 2023-24    | FY 2024-25  | FY 2025-26  | FY 2026-27 | FY 2027-28 | Total        |
|----------------------------------|---------------|-------------|-------------|------------|------------|--------------|
| Building                         | 3.89          | -           | 1.35        | -          | -          | 5.24         |
| Computers - Servers and Networks | 4.38          | -           | -           | -          | -          | 4.38         |
| Electrical Equipment             | 4.74          | -           | -           | -          | -          | 4.74         |
| Fire Fighting Equipment          | 1.07          | -           | -           | -          | -          | 1.07         |
| Furniture & Fixtures             | 6.16          | -           | -           | -          | -          | 6.16         |
| Office Equipment                 | 6.12          | -           | -           | -          | -          | 6.12         |
| Plant & Machinery                | 46.32         | 1.89        | -           | -          | -          | 48.21        |
| Vehicle                          | 6.18          | -           | -           | -          | -          | 6.18         |
| <b>Total</b>                     | <b>81.31*</b> | <b>1.89</b> | <b>1.35</b> | <b>-</b>   | <b>-</b>   | <b>84.55</b> |

\* Difference in Capex in FY 2023-24 between BPCIL figures/FY 2021-22, arising in an amount of shifting of date of commissioning of IIP, from March 2021 to 7 January 2024 (FY 2022-23) and annual capitalisation of amount of ₹ 2.44 is not in part of Capex for FY 2023-24.

## 5.3 Depreciation for the First Control Period

- 5.3.1. Ms BPCIL had considered the Useful Life of Assets as per the table below.

**Table 29: Useful Life of Assets considered by BPCIL for the First Control Period**

| Particulars                      | Useful Life | Rate   |
|----------------------------------|-------------|--------|
| Building                         | 30          | 3.33%  |
| Computers - Servers and Networks | 8           | 12.50% |
| Electrical Equipment             | 10          | 10.00% |

| Particulars             | Useful Life | Rate   |
|-------------------------|-------------|--------|
| Fire Fighting Equipment | 15          | 6.67%  |
| Furniture & Fixtures    | 7           | 14.29% |
| Office Equipment        | 5           | 20.00% |
| Plant & Machinery       | 15          | 6.67%  |
| Vehicles                | 8           | 12.50% |

3.3.2 The depreciation projected by the BPCL for the First Control Period had been presented in the table given below:

**Table 39: Depreciation projected by BPCL for the First Control Period**

(₹ in crores)

| Particulars                     | FY 2023-24 | FY 2024-25 | FY 2025-26 | FY 2026-27 | FY 2027-28 | Total |
|---------------------------------|------------|------------|------------|------------|------------|-------|
| Building                        | 0.34       | 0.42       | 0.43       | 0.48       | 0.68       | 2.35  |
| Computers / Servers and Network | 0.24       | 0.72       | 0.72       | 0.72       | 0.72       | 3.10  |
| Electrical Equipment            | 0.67       | 0.70       | 0.71       | 0.71       | 0.71       | 3.51  |
| Fire Fighting Equipment         | 0.41       | 0.46       | 0.47       | 0.47       | 0.47       | 2.17  |
| Furniture & Fixtures            | 0.01       | 0.02       | 0.02       | 0.02       | 0.02       | 0.10  |
| Office Equipment                | 0.01       | 0.02       | 0.02       | 0.02       | 0.02       | 0.11  |
| Plant & Machinery               | 3.21       | 3.64       | 3.70       | 3.70       | 3.70       | 17.97 |
| Vehicles                        | 0.01       | 0.02       | 0.02       | 0.02       | 0.02       | 0.11  |
| Total                           | 4.71       | 6.84       | 6.42       | 6.45       | 6.35       | 29.76 |

#### 5.4 Authority's Examination on Depreciation for the First Control Period at Conclusion Stage

5.4.1 The Authority noted that ISP had not computed the depreciation in respect of First Control Period as per AERA Order No. 10/2017-18 dated 12<sup>th</sup> January 2018, read with Amendment No. 11 to Order No. 35/2017-18. Accordingly, the Authority had recomputed the depreciation for the First Control Period, considering the above mentioned orders.

5.4.2 It was observed that ISP, in respect of FY 2023-24 (First control year), computed depreciation based on actual date of capitalization of assets.

5.4.3 Further, it was noted that BPCCL had considered Deedbook (ATF) as a non-depreciable asset in the JAD proposed for the control period. Accordingly, no depreciation claimed by the BPCCL.

5.4.4 Based on the above, the Authority had rescheduled depreciation considering depreciation for the First Control Period, after considering AERA Orders regarding "In the matter of Determination of Useful Life of Airport Assets" and timing of capitalisation related to Fuel Farm Rehabilitation & FHS of 33.33 crores from 31/03/2021 to 30/03/2024.

5.4.5 The depreciation proposed to be considered by the Authority for the First Control Period is presented in the table given below:

**Table M: Depreciation proposed to be considered by the Authority for the First Control Period at Consultation Stage**

(₹ in crores)

| Particulars                      | FY 2022-23  | FY 2023-24  | FY 2024-25  | FY 2025-26  | FY 2026-27  | FY 2027-28  | Total        |
|----------------------------------|-------------|-------------|-------------|-------------|-------------|-------------|--------------|
| Building                         | 0.34        | 0.42        | 0.44        | 0.44        | 0.44        | 0.44        | 2.67         |
| Computers - Servers and Networks | 0.24        | 0.72        | 0.72        | 0.72        | 0.72        | 0.72        | 3.18         |
| Electrical Equipment             | 0.47        | 0.71        | 0.71        | 0.71        | 0.71        | 0.71        | 3.31         |
| Fire Fighting Equipment          | 0.41        | 0.47        | 0.47        | 0.47        | 0.47        | 0.47        | 2.27         |
| Vehicle                          | 0.02        | 0.02        | 0.02        | 0.02        | 0.02        | 0.02        | 0.11         |
| Office Equipment                 | 0.01        | 0.02        | 0.02        | 0.02        | 0.02        | 0.02        | 0.11         |
| Plant & Machinery                | 0.76        | 1.44        | 1.70        | 1.70        | 1.70        | 1.70        | 15.82        |
| Furniture & Fixtures             | 0.01        | 0.02        | 0.02        | 0.02        | 0.02        | 0.02        | 0.10         |
| <b>Total</b>                     | <b>2.26</b> | <b>4.05</b> | <b>6.32</b> | <b>6.34</b> | <b>6.34</b> | <b>6.34</b> | <b>26.69</b> |

*Note: reason for variation in depreciation as per AERA and BPCCL is solely on account of timing of date of commissioning of FHS from March 2021 to February 2021.*

## 5.5 Regulatory Asset Base (RAB)

5.5.1 The RAB submitted by the M/s BPCCL for the First Control Period has been presented in the below table:

Table 32: Regulatory Asset Base (RAB) submitted by BPCL for the First Control Period

(₹ in crores)

| Particulars  | FY 2023-24 | FY 2024-25 | FY 2025-26 | FY 2026-27 | FY 2027-28 | Total |
|--------------|------------|------------|------------|------------|------------|-------|
| Opening RAB  | 83.57      | 81.50      | 79.27      | 76.87      | 68.72      |       |
| Addition     | 31.64      | 1.80       | 1.72       | -          | -          | 34.16 |
| Deletion     | -          | -          | -          | -          | -          | -     |
| Depreciation | 4.71       | 6.04       | 6.17       | 6.15       | 6.15       | 29.16 |
| Closing RAB  | 83.50      | 79.27      | 74.87      | 68.72      | 62.57      |       |
| Average RAB  | 70.53      | 81.38      | 77.87      | 71.29      | 65.64      |       |

5.4 Authority's Examination on Regulatory Asset Base (RAB) for the First Control Period at Consultation Stage

5.4.1 Considering the changes in the Capex, Addition and Depreciation itemed as per Tables 24 & 31 respectively, the Authority proposed to consider RAB & Average RAB of BPCL, in respect of its First Control Period, as shown in the table given below:

Table 33: Regulatory Asset Base (RAB) proposed by the Authority for the First Control Period at Consultation Stage

(₹ in crores)

| Particulars                 | Ref.     | FY 2023-24 | FY 2024-25 | FY 2025-26 | FY 2026-27 | FY 2027-28 | Total |
|-----------------------------|----------|------------|------------|------------|------------|------------|-------|
| Opening RAB (A)             | Table 15 | 34.09      | 83.11      | 73.88      | 74.34      | 68.19      |       |
| Addition (B)                | Table 24 | 61.31      | 1.80       | 1.54       | -          | -          | 64.68 |
| Deletion (C)                |          | -          | -          | -          | -          | -          | -     |
| Depreciation (D)            | Table 31 | 2.25       | 6.09       | 6.12       | 6.14       | 6.14       | 26.69 |
| Closing RAB (E) = (A+B-C-D) |          | 83.11      | 78.88      | 74.34      | 68.19      | 62.05      |       |
| Average RAB (G) = (A+E)/2   |          | 58.58      | 86.99      | 74.61      | 71.27      | 65.12      |       |

5.7 Stakeholders' comments regarding CAPEX, Depreciation and RAB for the First Control Period

5.7.1 BPCL's comments with respect to shifting of Date of Capitalisation for CAPEX according to F.31.52 Cir. from 31<sup>st</sup> March 2022 to 29<sup>th</sup> February 2024 (as per AURA) is as follows:

*"With respect to the timing of the capitalisation date, the Operator respectfully submits the following:*

- (i) The said capital expenditure has been incurred in accordance with Schedule 4 to 11 of the Licence/Concession Agreement entered with the Airport Operator, GAO Gurgaon International Airport Limited (GAIL), and was necessary for enabling operations by the Airport COO.*
- (ii) The Operator further submits that capital expenditure amounting to Rs. 73.52 crores was duly capitalised as of 31st March 2021, as indicated in the Multi-Year Tariff Proposal (MTP) submission. In support of this, an Auditor's Certificate endorsing the capitalisation of the assets has been attached for the Authority's reference.*
- (iii) Of the total capital expenditure of ₹73.52 crores for which the date of capitalisation was shifted on account of the commissioning of the Fuel Hydrogen System (FHS) in February, 2022, the Operator respectfully submits that only ₹ 10 crores relate to the FHS component commissioned in that month. The balance ₹14.52 crores pertain to assets for which the Operator has commissioned and made the necessary applications to the statutory authorities prior to 31st March 2021. The relevant approval letters from the DGLA are enclosed herewith for the Authority's reference.*
- (iv) With reference to the FHS component, the Operator would like to highlight that while the assets were ready to use by the Airport COO, we were awaiting the statutory approvals before commissioning FHS.*

*In light of the above, the Operator respectfully requests the Authority to consider the date of capitalisation of assets amounting to ₹73.52 crores as submitted in the MTP proposal as the same was ready to be put to use. This includes assets amounting to ₹14.52 crores, for which application for statutory approvals was duly submitted prior to 31st March 2021.*

*The Operator further requests that the known ex-RAS and ARR be determined for the period from the Airport CVO up to 31st March 2021, in line with the capitalisation referred to in the audited books of account."*

#### **5.7.2. HPL's demand with respect to reduction in cost of commissioning the East Jet is as under:**

*"In relation to the reduction in the cost of commissioning the East Jet from ₹1.72 crores to ₹1.38 crores, it is observed that the Authority has applied Project Management Contingency (PMC) and Contingency charges at the rates of 3% and 3% respectively, as against the Operator's submission of 7% and 15%. The Operator respectfully submits that these components form part of the actual project cost incurred in line with standard industry practice and internal cost approval processes.*

*Accordingly, the Operator requests that the Authority undertake a run-up of the capital expenditure, including PMC and Contingency, based on actual expenditures incurred during the Past Control Period, at the time of tariff determination for the next Control Period."*

3.7.3 BRL's comment with respect to exclusion of Deadstock from Regulatory Asset Base and allowing Normal Return of 7% on Capital Expenditure is as follows:

3.7.4 "The Operator respectfully submits that the Authority's decision to exclude the cost of Deadstock from the Regulatory Asset Base (RAB) and to allow only a normal return of 7% on the capital expenditure incurred is inconsistent with the Authority's own precedents and established regulatory treatment in similar cases concerning fuel firm operators of other states."

Specifically, in Second Central Fuelled Order No. 12/2017-18 for DLFPL, the Authority undertook a detailed analysis of the treatment of Deadstock and concluded that Deadstock should be considered as part of the RAB with no depreciation applied. The relevant extracts from the said order are reproduced below for reference:

Para 4.7:

"The Authority noted that certain minimum level of fuel ('Deadstock'), is to be stored as fuel storage tanks at all times for uninterrupted operation of the fuel firm. There are two possible accounting treatments for the cost of Deadstock as observed in the case of other fuel firms:

4.7.1 Deadstock is treated as a depreciable capital asset: Cost of Deadstock is added to the capital asset (storage tank/pipeline) cost and depreciated at the applicable rate.

4.7.2 Deadstock is treated as a non-depreciable asset: Cost of Deadstock is accounted for as an separate capital asset ('Deadstock') and not depreciated, since its residual value may not fall below 25% of the original cost, as per clause 3 of the provisions of the Companies Act, 2013."

Para 4.8:

"The Authority, in this regard, has proposed to treat Deadstock as a non-depreciable asset and consider appropriate adjustment to be made in the case of disposal of such Deadstock to the last control period, based on the conversion period of the fuel firm operator."

It is thus evident that ALRA has previously acknowledged that Deadstock constitutes a necessary and continuous operational requirement warranting its inclusion in the RAB, albeit without depreciation.

Furthermore, the Operator submits that the cost of procuring and maintaining Deadstock is an upfront capital expenditure borne by the Operator, with the underlying objective of ensuring uninterrupted fuel firm operations. Accordingly, in line with established regulatory principles and ALRA's past decisions, the Operator should be allowed a return on this investment at the Full Rate of Return (FRR), rather than a normal return. The FRR is intended to fairly compensate regulated entities for capital investments made and to encourage continued investment in infrastructure and operational efficiency.

In view of the foregoing, the Operator respectfully requests the Authority to:

- Consider the cost of Deadstock as part of the Regulatory Asset Base (RAB), consistent with its own direction in Order No. 12/2017-FA and other relevant tariff orders; and
- Allow a return on such capital expenditure at the applicable FIRR, rather than a nominal rate of 3% to reflect the actual cost and operational necessity of maintaining Deadstock."

### 5.8 Authority's analysis on Stakeholders' comments regarding CAPEX, Depreciation, and RAB for the First Control Period

5.8.1 The Authority notes the comment of BPCL with respect to shifting of Date of Capitalization for CAPEX amounting to ₹ 33.52 Crores from 31<sup>st</sup> March 2023 to 29<sup>th</sup> February 2024 (in the C/P as per ADRA).

5.8.2 The Authority notes that there are two components in the CAPEX amounting to ₹ 33.52 crores for which ADRA, in Consultation Stage had shifted the capitalization date from 31.03.2023 to February 2024. The two components are:

- CAPEX of ₹ 14.32 crores for which approvals were received from the regulatory authorities (DGCA) on 16.04.2023.
- CAPEX of ₹ 19.20 crores pertaining to Fuel Hydrant System for which regulatory approval (from DGCA) was received in February 2024.

5.8.3 In respect of the assets capitalized under part (a) above amounting to ₹ 14.32 crores, the Authority decides to consider its capitalization date as 16.04.2023 based on the receipt of the requisite regulatory approval from DGCA. However, in respect of CAPEX amounting to ₹ 19.20 crores under part (b) above, the Authority decides to maintain the capitalization date as was proposed at the consultation stage, as the regulatory approval in this regard was received in February 2024 only.

5.8.4 The Authority notes the comment of BPCL regarding reduction in cost of constructing the first hour.

In this regard, the Authority tried to find out that generally the PNC & Project Contingency are considered in the large projects installing complex design elements or other complexities etc. However, it is observed that in this case, the project mostly involves construction activities in the existing Mahatma Jyoti Building, with much smaller scope of work, which does not justify total 17% PNC & Contingency of Project Contingency. Nevertheless, the Authority has considered total PNC & Contingency at 6% of estimated cost which is also in line with the project's soft costs generally provided by ADRA for all airports. Hence, considering the above, the Authority decides to maintain the same clause was taken at the Consultation Stage.

5.8.5 As regard to the comment of BPCL with respect to exclusion of Deadstock from Regulatory Asset Base and allowing Nominal Return of 3% on Capital Expenditure.

In this matter, the Authority is of the view that, even if Dumbuck is considered as a non-depreciable asset as submitted by DPCL, it cannot be treated with other assets such as Buildings, Plant & Machinery which are used in the provision of Aeronautical Services. However, considering the Dumbuck is in the form of aircraft, the Authority decides to consider a rate of 2% (which is more than the inflationary factor i.e. mean of WPI basket considered by AIRA for AOs) on dumbuck to cover up the erosion in value of dumbuck due to inflation etc. Accordingly, the Authority has decided to allow a rate of 2%, as proposed during the consultation stage, to help offset the impact of inflation.

Considering the revised value of Capital Assets for the FY 2023-24 (aggregation of ₹ 14.52 Cr. On 16/06/2023), the Authority has recomputed the depreciation as per the following table:

**Table 34: Depreciation decided by the Authority for the First Control Period**

(₹ in crores)

| Particulars                      | FY 2023-24  | FY 2024-25  | FY 2025-26  | FY 2026-27  | FY 2027-28  | Total        |
|----------------------------------|-------------|-------------|-------------|-------------|-------------|--------------|
| Building                         | 0.34        | 0.42        | 0.45        | 0.48        | 0.48        | 2.17         |
| Computers & Servers and Networks | 0.34        | 0.72        | 0.72        | 0.72        | 0.72        | 3.00         |
| Electrical Equipment             | 0.47        | 0.71        | 0.71        | 0.71        | 0.71        | 3.31         |
| Fire Fighting Equipment          | 0.41        | 0.47        | 0.47        | 0.47        | 0.47        | 2.27         |
| Vehicles                         | 0.03        | 0.03        | 0.03        | 0.03        | 0.03        | 0.18         |
| Office Equipment                 | 0.03        | 0.03        | 0.03        | 0.03        | 0.03        | 0.18         |
| Plant & Machinery                | 1.45        | 3.64        | 3.73        | 3.79        | 3.78        | 16.20        |
| Furniture & Fixtures             | 0.01        | 0.02        | 0.02        | 0.02        | 0.02        | 0.10         |
| <b>Total</b>                     | <b>2.94</b> | <b>6.93</b> | <b>8.12</b> | <b>8.14</b> | <b>8.14</b> | <b>27.99</b> |

Note: There is a variation in computation of Order Supply as per CS Stage as an account of shifting of date of commencement of CAPPL commencing in FY 24-25 from 29<sup>th</sup> February 2023 to 16<sup>th</sup> June 2023.

3.4.6 The Authority has recomputed the Regulatory Asset Base (RAB) for the First Control Period after considering the revised Depreciation as per the following table:

**Table 35: Regulatory Asset Base decided by the Authority for the First Control Period**

(₹ in crores)

| Particulars      | R.A.     | FY 2023-24 | FY 2024-25 | FY 2025-26 | FY 2026-27 | FY 2027-28 | Total        |
|------------------|----------|------------|------------|------------|------------|------------|--------------|
| Opening RAB (A)  | Table 12 | 24.24      | 82.42      | 78.19      | 73.65      | 67.51      |              |
| Addition (B)     | Table 28 | 61.31      | 1.89       | 1.58       | -          | -          | <b>64.69</b> |
| Deduction (C)    |          | -          | -          | -          | -          | -          | -            |
| Depreciation (D) | Table 34 | 2.96       | 6.93       | 8.12       | 8.14       | 8.14       | <b>27.99</b> |

| Particulars                    | Ref | FY<br>2023-24 | FY<br>2024-25 | FY<br>2025-26 | FY<br>2026-27 | FY<br>2027-28 | Total |
|--------------------------------|-----|---------------|---------------|---------------|---------------|---------------|-------|
| Closing RAD<br>(E) = (A+B+C+D) |     | 82.43         | 78.19         | 75.03         | 67.72         | 61.36         |       |
| Average RAD<br>(G) = (A+E/2)   |     | 53.24         | 66.31         | 75.92         | 70.66         | 64.44         |       |

#### 5.9 Authority's Decisions regarding RAD for the First Control Period

Based on the material before it and its analysis, the Authority with respect to Capex, Depreciation and RAD for the First Control Period decides

- 5.9.1 To consider Capital Addition to RAD as per the Table 28.
- 5.9.2 To consider Depreciation as per Table 24.
- 5.9.3 To fine tune the Capital Expenditure based on actuals, at the time of determination of tariff for Second Control Period, subject to cost efficiency and reasonableness of capex incurred.
- 5.9.4 To consider RAD and Average RAD as per Table 23.
- 5.9.5 To fine tune the RAD and Average RAD considering the actual figures, at the time of tariff determination for Second Control Period.

भा.वि.आ.वि.प्रा.  
AERA

## 6. FAIR RATE OF RETURN (FRR) FOR THE FIRST CONTROL PERIOD

### 6.1 BPCL's Submission on Fair Return of Return (FRR) for the First Control Period

6.1.1 BPCL had submitted that they would primarily utilize internally accrued funds for the capital expenditure proposed for the First Control Period. BP had considered Cost of Equity as 14% and based on the same, Fair Rate of Return (FRR) had been proposed at 14% for the First Control Period.

### 6.2 Authority's Examination of Fair Rate of Return (FRR) for the First Control Period at Consultation Stage

6.2.1 The Authority noted from BPCL's submission that the capital expenditure proposed for the First Control Period would be funded through internal accruals. Hence, no debt component was proposed by BPCL in its MYTP submission. BPCL, for the computation of FRR had considered Cost of Equity as 14%. Considering a debt and Cost of Equity at 14%, BP had proposed FRR for the First Control Period at 14%.

6.2.2 Funding of Capex entirely through equity contribution makes the capital structure of the first the respect of Naga. One financing insufficient and which is not in the interest of all the stakeholders, as it ultimately leads to higher tariff.

6.2.3 The Authority, in line with the approach indicated at para 3.11 for the determination of FRR, proposed to consider FRR as proposed by BPCL for the First Control Period as per table given below:

Table No. FRR proposed to be considered by the Authority for the First Control Period at Consultation Stage

| Parameter                              | %      |
|----------------------------------------|--------|
| Weighted Average costing of Equity (A) | 32%    |
| Weighted Average costing of Debt (B)   | 48%    |
| Cost of Equity (C)                     | 15.08% |
| Cost of Debt (D)                       | 9.68%  |
| FRR $(E) = A * C + (1-A) * D$          | 12.21% |

In view of the above, Authority proposed to consider FRR for the First Control Period @12.21% as computed table above.

## **6.2 Stakeholders' comments regarding Fair Rate of Return (FRR) for the First Control Period**

### **6.2.1 BPCI's comment regarding application of normative gearing ratio is as under:**

*"It is observed that the Airport Economic Regulatory Authority of India (AERA) has applied a normative gearing ratio in capital ratio of 48:52 for the determination of tariff for the First Control Period. In this regard, the Operator respectfully submits the following for the Authority's consideration:*

#### **(i) Internal Financing Policy of BPCI:**

*Bharat Petroleum Corporation Limited (BPCL), being a publicly listed entity, adheres to its Internal Capital Budget Guidelines which govern the financing of projects undertaken by the company in a financially prudent manner. As per the said guidelines, projects with a capital outlay of less than ₹100 crore are to be financed entirely through internal resources, with no provision for external borrowings. Given that the Operator's investment in the Mangalore Fuel Farm falls below the ₹100 crore threshold, no debt has been availed for the said project.*

#### **(ii) Inapplicability of Comparative Gearing Ratio:**

*The normative gearing ratio of 48:52 appears to have been derived from a study undertaken by AERA in relation to other airport operators, namely Bangalore International Airport Limited (BIAL) and Cochin International Airport Limited (CIAL). This study referenced 6 airports from foreign airports considered comparable to BIAL and CIAL, to wit: six infrastructure companies operating in capital-intensive sectors. In order to arrive at the normative gearing, however, such benchmarks are not appropriate as directly applicable to the Operator, whose business model, capital structure, and scale of capital expenditures differ significantly. Unlike the aforementioned companies, the Operator does not undertake projects of similar capital intensity and accordingly has no requirement to raise debt of a comparably significant. Applying the same gearing ratio to the Operator, therefore, lacks parity and does not reflect the financial realities or prudent financing practices adopted by the Operator. At 100%, the adoption of a 48:52 gearing ratio is the present case, would be neither reasonable nor equitable.*

#### **(iii) Precedent of Actual Gearing Considered for Future Periods**

*It is further submitted that AERA has, in prior determinations, considered actual gearing ratios for other independent Airport Operators (AOs) at various airports, irrespective of whether the gearing ratio entirely comprised of a ratio of debt and equity. For instance, AERA considered an actual gearing of 70:30 for the Fuel Farm operator at BIAL during the first two years of the Third Control Period under Table 14 of Order No. 40/2021-23. These two precedents indicate a precedent of considering actual capital structure for AOs.*

*In view of the above, the Operator respectfully urges the Authority to adopt a conservative and safe approach by considering the actual gearing ratio for the purpose of computing the Fair Rate of Return (FRR) for the First Control Period.*

**6.4 Authority's analysis on Stakeholders' comments regarding Fair Rate of Return (FRR) for the First Control Period**

6.4.1. The Authority notes the comments of MPCI, regarding application of normative gearing ratio. In this regard, the Authority observes that BPCI has not availed any debt from outside and CAPEX on Fuel Firms & ITP facilities has been funded through equity (internal accruals).

6.4.2. The stakeholders will appreciate that the Regulator has to balance the interest of all the stakeholders, including facility users. As per ARCA, the absence of debt is proper (keeping in view the efficient use of CAPEX funding and) adversely impacts the users by way of higher tariffs due to higher Cost of Equity vis-à-vis Cost of Debt. Moreover, the Authority for BPs also consider applying normative gearing ratio, similar to airports, to encourage efficient Capital Structure and increase efficiency in CAPEX funding.

6.4.3. Considering the above and taking into account the recommendations of NITI Aayog/ PIB during the PIB meeting held recently for few AAI airports wherein PIB observed that financing of airport projects through equity only or with negligible level of debt is not an efficient way of funding CAPEX and hence requires optimization from a regulatory perspective, as well as provide airport services to users in a cost-effective manner, the Authority decides to maintain the same approach was taken at the Consultation Stage i.e. to apply Normative gearing ratio of 48.77 for the Fuel Firms facilities at Airport Cost as given in Table 16, so as to maintain a balance in the interests of all stakeholders.

**6.5 Authority's Decision regarding Fair Rate of Return (FRR) for the First Control Period**

Based on the material before it and in exercise of the Authority with respect to FRR for the First Control Period decides:

6.5.1. To consider FRR as per Table 16.

AERA

## 7. OPERATION AND MAINTENANCE (O&M)-EXPENDITURE FOR THE FIRST CONTROL PERIOD

### 7.1 BPCL's submission regarding Operation and Maintenance (O&M) Expenditure for the First Control Period

7.1.1 Operation and Maintenance (O&M) Expenditure submitted by BPCL for the First Control Period is broadly grouped into the following heads of expenses:

- Employee & Outsourced Manpower Expenses
- Administrative & General Expenses
- Repairs and Maintenance Expenses
- Utility Expenses

7.1.2 Operating & Maintenance expenses submitted by BPCL for Mopa, Goa Airport in respect of the First Control period are presented below:

Table 37: Operation and Maintenance Expenses projected by BPCL for the First Control Period

(₹ in crores)

| Particulars                             | FY 2023-24 | FY 2024-25 | FY 2025-26 | FY 2026-27 | FY 2027-28 | Total |
|-----------------------------------------|------------|------------|------------|------------|------------|-------|
| Employee & Outsourced Manpower Expenses | 4.51       | 5.24       | 5.73       | 6.33       | 6.96       | 28.68 |
| Administrative & General Expenses       | 1.82       | 2.33       | 2.19       | 2.38       | 2.27       | 11.45 |
| Repairs & Maintenance Expenses          | 0.92       | 1.04       | 1.07       | 1.17       | 1.29       | 5.49  |
| Utility Expenses                        | 0.95       | 0.76       | 0.84       | 0.93       | 1.01       | 4.49  |
| Total Operation Expenses                | 8.18       | 9.43       | 9.86       | 10.83      | 11.53      | 50.00 |

### 7.2 Authority's Examination regarding Operating & Maintenance (O&M) Expenditure for the First Control Period at Consultation Stage

7.2.1 The Authority noted that O&M Expenses projected for the First Control Period by BPCL includes actual expenses incurred by the ISP for the FY 2023-24 (first audit year of the Control Period). The submission made by BPCL in respect of the various components of O&M Expenses, including Y-o-Y increase in O&M Expenses considered by the ISP for the First Control Period, had been analysed by the Authority in the following section:

**(A) Employee & Outstretched Manpower Expenses:**

- 7.2.2 The Authority noted that Employee & Manpower expenses comprise of payroll related expenses of BPCL employees and expenses related to outstretched employees.

**6. Employee Expenses:**

- 7.2.3 It was noted that BPCL submitted ₹ 1.75 crores towards employee expenses for the first tariff year (FY 2023-24) of the control period and had considered 10% YoY increase in employee expenses (such as salary, allowances, perks etc.) from the second tariff year (FY 2024-25) onward up to 2026 tariff year (FY 2027-28), considering the anticipated market growth and inflationary impact.

In response to AERA query, BPCL email dated 19.12.2024 submitted breakdown of BPCL regular employees deployed for Fuel from Services to Mega Gas export, along with their average annual salaries etc. as indicated in the table below:

**Table M9: Designation and salary wise break up of BPCL employees for FY 2023-24 of the First Control Period**

| Designation of Employee(s) | No. of Employee(s) | Average Annual Salary (₹ in Crores) | Total Annual Salary (₹ in Crores) |
|----------------------------|--------------------|-------------------------------------|-----------------------------------|
| Strategic Manager          | 1                  | 0.03                                | 0.03                              |
| Assistant Manager          | 3                  | 0.26                                | 0.78                              |
| Associate Executive        | 2                  | 0.14                                | 0.28                              |
| <b>Total</b>               | <b>6</b>           |                                     | <b>1.75</b>                       |

- 7.2.4 BPCL had submitted the CA certified statement in support of actual employee expenses incurred by BPCL amounting to ₹ 1.75 crores in FY 2023-24 in Mega Gas.

The Authority is aware that BPCL is a Govt. of India Public Sector enterprise & their pay and perks etc. are governed by the Department of Public Enterprise (DPE). Further, the accounts of BPCL, including payroll expenses, are audited by the CAG of India. Accordingly, the Authority proposed to consider actual expenditure on BPCL & outstretched employees. However, the 10% growth rate proposed by the BPCL for the second tariff year onward seemed to be on higher side. Therefore, the Authority proposed to consider a Y-o-Y increase of 6% in employee expenses for the First Control Period, which takes care of increase in salaries due to annual increments/DPA increase etc.

- 7.2.5 The Authority considered the Employee expenses for FY 2023-24 as a base year for projecting the employee expenses in the First Control Period and had assumed 6% Y-o-Y increase in employees' payroll expenses in place of 10% Y-o-Y increase projected by the ISP. The Employee expenses proposed by the Authority for the First Control Period are as under:

**Table 39: Employee Expenses proposed by the Authority for the First Control Period**

(₹ in Crores)

| Particulars                      | FY 2023-24 | FY 2024-25 | FY 2025-26 | FY 2026-27 | FY 2027-28 | Total  |
|----------------------------------|------------|------------|------------|------------|------------|--------|
| As submitted by BPCI (A)         | 1.74       | 1.82       | 2.11       | 2.32       | 2.55       | 10.44  |
| As proposed by the Authority (B) | 1.74       | 1.84       | 1.95       | 2.07       | 2.18       | 9.79   |
| Variance (B-A)                   | -          | (0.08)     | (0.16)     | (0.25)     | (0.36)     | (0.85) |

#### **B. Outsourced Manpower expenses**

7.2.6 The Authority noted that the BPCI had outsourced major portion of manpower deployed at Mapo, Goa airport from the third party. BPCI has projected ₹ 18.08 crores towards outsourced manpower expenses and projected 10% Y-o-Y growth rates from the second half year onwards (FY 2024-25 to FY 2027-28) of the control period.

In response to AERA's query regarding break up of outsourced manpower, BPCI, vide mail dated 19.12.2024 submitted that 34 employees have been taken from BSSPL for the operations related to ITP Services and 15 manpower is contracted for routine maintenance activities (03 electrician & 12 housekeeping) in FY 2023-24. Details of Outsourced manpower and their average salary in FY 2023-24 is mentioned in the table below.

**Table 40: Break up of BSSPL & Outsourced Employees in FY 2023-24 (First control year) of the First Control Period**

| Employee category                               | No. of Employees | Average per employee annual salary (₹ In Crore) | Total Annual salary (₹ In Crore) |
|-------------------------------------------------|------------------|-------------------------------------------------|----------------------------------|
| Outsourced manpower from BSSPL for ITP Services | 34               | 1.08                                            | 2.26                             |
| For Electrical works                            | 05               | 0.01                                            | 0.05                             |
| For House keeping                               | 10               | 0.02                                            | 0.16                             |
| <b>Total</b>                                    | <b>39</b>        |                                                 | <b>2.47</b>                      |

7.2.7 The Authority noted that out of the total 11.35 number of outsourced manpower taken from third party, 34 nos. of outsourced manpower are sourced from BSSPL, at an average annual salary of ₹ 1.08 crore, including 10% service management fees charged by the BSSPL, as the Cost to Company (CTC) of staff posted at the Mapo, Goa for ITP Services. Remaining 05 nos. of contract staff is hired for security and housekeeping jobs, at an average annual salary of ₹ 0.16 crore.

Considering that skilled & trained manpower is required for safe & efficient operation of TTP Services, the Authority proposed to consider manpower cost for FY 2023-24 as submitted by the BPCL.

- 2.2.8 Y-o-Y increase in number of outsourced employees (sourced from BSSPL & other third party) projected by the BPCL for the First Control Period is presented below:

Table 41: BSSPL & Outsourced Manpower projected by BPCL for the First Control Period

| Particulars                                          | No. of Outsourced Manpower |               |               |               |               |
|------------------------------------------------------|----------------------------|---------------|---------------|---------------|---------------|
|                                                      | FY<br>2023-24              | FY<br>2024-25 | FY<br>2025-26 | FY<br>2026-27 | FY<br>2027-28 |
| Outsourced manpower from BSSPL<br>(for TTP Services) | 58                         | 69            | 42            | 44            | 46            |
| For Electrical Works                                 | 03                         | 03            | 05            | 03            | 05            |
| For House Keeping                                    | 10                         | 05            | 03            | 03            | 03            |
| Total Manpower                                       | 68                         | 69            | 50            | 52            | 54            |

- 2.2.9 The Authority noted that BPCL had proposed 40 Nos. of BSSPL manpower in FY 2026-27 which is 17.64% higher than the employees' number in FY 2023-24. Therefore, BPCL had projected around 1% Y-o-Y increase in BSSPL manpower numbers from FY 2025-26 for the First Control Period.

The Y-o-Y increase in manpower numbers projected by the BPCL seems reasonable, when compared with the projected increase in traffic volume (that there growth to be handled is for table 22) during the First Control Period, which is slightly higher than the Y-o-Y increase in manpower numbers.

- 2.2.10 The Authority had considered the actual figures for FY 2023-24 as a base, for projecting the Manpower Expenses for the remaining until years of the First Control Period, assuming 0% growth in expenses i.e. Y-o-Y basis in place of 10% Y-o-Y growth projected by the TSP. The Authority proposed one-third increase of 15% in expenses for the FY 2024-25 based on the 30% increase in fuel throughput volume proposed for FY 2024-25 by the TSP.

The Outsourced Manpower expenses proposed by the Authority for the First Control Period is as under:

Table 42: Outsourced Manpower expenses proposed by the Authority for the First Control Period

| Particulars                      | FY<br>2023-24 | FY<br>2024-25 | FY<br>2025-26 | FY<br>2026-27 | FY<br>2027-28 | Total |
|----------------------------------|---------------|---------------|---------------|---------------|---------------|-------|
| Expenses as per BPCL (A)         | 1.67          | 3.31          | 3.04          | 4.61          | 4.41          | 16.03 |
| As proposed by the Authority (B) | 1.67          | 5.21          | 3.42          | 5.65          | 5.85          | 18.80 |

| Particulars    | FY 2023-24 | FY 2024-25 | FY 2025-26 | FY 2026-27 | FY 2027-28 | Total  |
|----------------|------------|------------|------------|------------|------------|--------|
| Variance (B-A) | -          | (0.09)     | (0.22)     | (0.38)     | (0.50)     | (1.23) |

\* Variance is mainly on account of the insurance proposed by the authority on yearly basis in place of one insurance considered by BPCL.

## B. Administrative & General Expenses

7.2.11 It was noted that the Administrative & General Expenses proposed by the BPCL for the First Control Period mainly comprise of expenses related to Insurance, Rental, Security and Misc. Administrative Expenses. The breakup of Administrative & General Expenses proposed by the ISP for the First Control Period is given in table below:

Table 45: Administrative and General Expenses projected by BPCL for the First Control Period

(₹ in crores)

| Particulars                     | FY 2023-24 | FY 2024-25 | FY 2025-26 | FY 2026-27 | FY 2027-28 | Total |
|---------------------------------|------------|------------|------------|------------|------------|-------|
| Insurance Expenses              | 0.22       | 0.38       | 0.73       | 1.22       | 1.23       | 3.85  |
| Security Expenses               | 0.25       | 0.34       | 0.46       | 0.57       | 0.56       | 2.18  |
| Rental Expenses                 | 1.03       | 1.08       | 1.14       | 1.21       | 1.24       | 5.73  |
| Misc. Administrative Expenses   | 0.42       | 0.39       | 0.40       | 0.44       | 0.68       | 2.53  |
| Total Admin. & General Expenses | 1.92       | 2.19       | 2.19       | 2.36       | 2.67       | 11.45 |

The major components of administrative expenses, including Y-o-Y increase considered by the ISP, for the First Control Period had been analysed by the Authority as under:

### L. Insurance Expenses

7.2.12 The Authority noted that BPCL had proposed an insurance expense amounting to ₹ 1.05 crores for the First Control Period, which includes the rental expenses amounting to ₹ 0.22 crores for the FY 2023-24. It was noted from the ISP's submission that insurance expenses consist of the premiums paid to insurance companies, in respect of corporate coverage taken at the corporate level and in local level. The Authority observed that BPCL had projected annual insurance expense in the range of ₹ 0.14 Crores to 0.25 crores for the different tariff years of the First Control Period.

Further, it was noted that insurance expenses for the FY 2024-25 (second tariff year) are projected to decrease by 18% as compared to FY 2023-24. Thereafter, from the FY 2025-26 onward, BPCL had projected 10% Y-o-Y increase for insurance expenses in respect of insurance taken at corporate level and 20% Y-o-Y increase in expenses for the insurance coverage taken locally at Mop. Gas. The increase in insurance expenses, on Y-o-Y basis

(considering 10%/20% increase in insurance expenses at Corporate and Local respectively) would not be 0%, 10% & 14% approximately for FY 2025-26, FY 2026-27 & FY 2027-28 respectively.

As per the BPP, insurance expenses had been proposed for the First Control Period considering the value of the assets and inflation factor.

7.2.13. Considering that insurance cover for the Assets & Infrastructure is necessary for safeguarding the financial interests of the service provider, against loss & damage to the property etc. from natural disasters & other perils, the Authority proposed to consider insurance expenses for the FY 2025-26 (First tariff year), which are as per actual figures submitted by the BPP.

It was observed that around 90% capitalization pertaining to the First Control Period has been done by the BPP in the first tariff year i.e. FY 2025-26 and there is a noticeable excess in the next two tariff years and capex in the last two tariff years. As such, book value of the assets would decrease due to depreciation in the later part of the First Control Period, which should result in decrease in insurance expenses. Therefore, the Authority proposed to consider 10% decrease in FY 2026-27 & 0% increase in FY 2027-28 as projected by the BPP. In respect of FY 2026-27 & FY 2027-28, Authority proposed to offset out the Y-o-Y increase in insurance expenses to 0% in future in income in the similar proportion due to annual general inflation, as against Y-o-Y increase of 10% & 14% respectively considered by the BPPCL.

The insurance expenses proposed by the Authority for the First Control Period are as under:

Table 44: Insurance expenses proposed by the Authority for the First Control Period

| Particulars                                         | FY<br>2025-26 | FY<br>2026-27 | FY<br>2028-29 | FY<br>2029-30 | FY<br>2037-38 | Total  |
|-----------------------------------------------------|---------------|---------------|---------------|---------------|---------------|--------|
| Insurance Expenses as per BPPCL (A)                 | 0.22          | 0.18          | 0.18          | 0.22          | 0.25          | 1.04   |
| Insurance Expenses as proposed by the Authority (B) | 0.22          | 0.18          | 0.18          | 0.20          | 0.21          | 1.00   |
| Variance (B-A)                                      |               |               |               | (0.02)        | (0.04)        | (0.05) |

## B. Lease Rental Expenses

7.2.14. The Authority noted that upon the date 47th of the services agreement (between BPPCL & the airport operator i.e. BPPCL) airport operator is required to provide a land parcel of 24,367 sqm. to BPPCL on 'as is where is' basis, with Land License Fee of ₹ 25 per sqm. per month. Further, Land License Fee shall be calculated on Y-o-Y basis based on the notified CPI (IW), from the first anniversary of the Airport O&M.

The Authority observed that BPPCL, in its MYTF, had considered land license fee of ₹ 25 per sqm. per month for total area of 24,044 sqm. and of ₹ 1,300 per sqm. per month for 143 sqm. land area.

In response to AERA query, BPCL, vide email dated 13.11.2024 clarified that during the measurement and physical takeover of the land from the airport operator, they have taken over an actual land area of 24484 SQM + 189 SQM, hence the invoice is being raised for an area measuring to 24674 sqm. (24484 sqm. + 189 sqm.). BPCL had attached the copy of Handing Over Taking Over (HOTO) letter, signed by both BPCL and GAIL.

As per the HOTO letter, airport operator had granted the rights to BPCL in respect of 24484 sqm. of land area for development of fuel farm on monthly land license fee @ ₹ 25 per sqm. and 189 sqm. land area for parking, aviation fueling equipment etc. on monthly fee @ ₹ 1300 per sqm.

Accordingly, the Authority had computed the Land License Fee payable by BPCL to the Airport operator, based on the actual land area (24484 sqm. + 189 sqm.) received by the ISP from AAI.

7.2.13. The Authority further noted that BPCL had paid ₹ 1.07 crore (excluding GST) as land license fee for the FY 2023-24 (first half year) to the airport operator. The above license fee amount also considers the impact of annual escalation in license fee rate, based on CPI (W) index as per the provisions of license agreement. The Authority had considered the actual payment of land license fee by the ISP to AAI for the FY 2023-24 as a base, for projecting land license fee for the remaining half year of the First Control Period.

It was noted from BPCL submission that for FY 2024-25, ISP has considered annual escalation in license fee @ 5.79% considering an increase in CPI (W) index. In this regard, the Authority reviewed the CPI (W) index released by Ministry of Labour, Govt. of India for the period from April, 2024 to November, 2024 and had noted that there had been 2.04% increase in CPI (W) Index during the April-November, 2024 period. Accordingly, the Authority proposed to consider 2.04% increase in license fee rate for the FY 2024-25. Further, the Authority proposed to consider the same percentage increase (2.04%) on Y-o-Y basis for re-quantification of the annual license fee for the remaining half year of the First Control Period. However, the Authority would arrive up the license fee for the First Control Period on the basis of actual CPI (W) index, at the first half dissemination for the Second Control Period.

**Table 48: Land License Fee proposed to be considered by the Authority for the First Control Period**

| Particulars                      | (₹ Crores) |            |            |            |            | Total  |
|----------------------------------|------------|------------|------------|------------|------------|--------|
|                                  | FY 2023-24 | FY 2024-25 | FY 2025-26 | FY 2026-27 | FY 2027-28 |        |
| As submitted by BPCL (A)         | 1.03       | 1.08       | 1.14       | 1.21       | 1.28       | 8.33   |
| As proposed by the Authority (B) | 1.03       | 1.07       | 1.11       | 1.15       | 1.19       | 5.54   |
| Variance (B-A)                   | -          | (0.01)     | (0.03)     | (0.06)     | (0.09)     | (0.19) |

## 81. Security expenses

7.2.16. The ISP had projected a total of ₹ 2.11 crore as Security Expenses for the First Control Period, which includes actual expenses incurred by DPCL for the FY 2023-24 amounting to ₹ 0.25 crore. DPCL had considered security expenses for the FY 2024-25 amounting to ₹ 0.34 crore, after considering increase in manpower number from five to seven (applicable from October, 2024) on the basis of the recommendation of BCAS after its inspection of the Eadam facility. The total security expenses i.e. ₹ 0.34 crore proposed for FY 2024-25 is translating into an increase of 36% (10% annual increase & 26% increase due to additional manpower) over the FY 2023-24.

In respect of the FY 2025-26, the ISP had projected total security expenses amounting to ₹ 0.40 crore (i.e. 39% increase over the FY 2024-25), which also factors the full year impact of increase in additional manpower initiated in October, 2024. Thereafter, ISP had projected Y-o-Y increase of 10% for the last two triennial years.

Considering that Security expenses are necessary for the safety of Eadam facility and the compliance of security norms of BCAS, therefore, the Authority proposed to consider increase in the security expense due to increase in manpower numbers, as proposed by the ISP. However, 10% normal Y-o-Y increase in security expense considered by the DPCL, seemed to be on the higher side. Therefore, the Authority proposed to normalize the normal annual Y-o-Y increase to 6% from FY 2024-25 onwards, to factor in the impact of annual salary increments/wage increases in respect of the employed employees.

The security expenses proposed to be considered by the Authority for the First Control Period is as under:

Table 46: Security expenses proposed to be considered by the Authority for the First Control Period

(₹ crore/lakh)

| Particulars                      | FY 2023-24 | FY 2024-25 | FY 2025-26 | FY 2026-27 | FY 2027-28 | Total  |
|----------------------------------|------------|------------|------------|------------|------------|--------|
| As accounted by DPCL (A)         | 0.25       | 0.34       | 0.40       | 0.53       | 0.58       | 2.12   |
| As proposed by the Authority (B) | 0.25       | 0.32       | 0.40       | 0.42       | 0.45       | 1.84   |
| Variance (B-A)                   | -          | (0.02)     | (0.00)     | (0.07)     | (0.11)     | (0.20) |

#### iv. Miscellaneous Administrative Expenses

7.2.17. The Authority noted that Misc. Administrative Expenses amounting to ₹ 2.55 crore projected by the BPCL, comprise of several items such as Postal Expenses, Inspection Fees, Professional Fees, Printing & Stationery expenses, Sales Promotion expenses, etc. BPCL had considered an actual misc. expense of ₹ 0.42 Crore for the FY 2023-24, thereafter, the ISP had projected 10% Y-o-Y increase in Misc. Administrative expenses for all years of the First Control Period, except FY 2024-25, where ISP had considered an increase of 88%, which includes one-time expense ₹ 0.22 crore related to integral function and 10% normal annual increase.

As most of the misc. administrative expenses are of routine nature and necessary for the smooth office operations, the Misc. Administrative Expenses proposed by BPCL for the First Control Period seemed reasonable. However, the 10% normal Y-o-Y increase in expenses considered by the BPCL appeared to have the higher risk. Therefore, the Authority proposed to rationalize the normal Y-o-Y increase in misc. admin. expenses to 5% for the remaining initial years of the First Control Period, except for FY 2024-25 & FY 2025-26. In respect of FY 2024-25, the Authority proposed to consider an increase of 37%, which includes one-time expense ₹ 0.22 crore related to integral function and 5% normal annual increase in place of 10% increase considered by the BPCL. For the FY 2025-26, the Authority proposed to consider misc. admin. expenses amounting to ₹ 0.40 Crore, as proposed by BPCL.

Considering the above, the misc. administrative expenses proposed by the Authority for the First Control Period is as under:

**Table 47: Misc. Administrative Expenses proposed by the Authority for the First Control Period**

| Particulars                           | IN Crores  |            |            |            |            |        |
|---------------------------------------|------------|------------|------------|------------|------------|--------|
|                                       | FY 2023-24 | FY 2024-25 | FY 2025-26 | FY 2026-27 | FY 2027-28 | Total  |
| Misc. Admin. Expenses as per BPCL GAG | 0.42       | 0.79       | 0.40       | 0.44       | 0.44       | 2.59   |
| As proposed by the Authority (B)      | 0.42       | 0.66       | 0.40       | 0.42       | 0.44       | 2.34   |
| Variance (B-A)                        | -          | (0.12)     | 0.00       | (0.02)     | 0.00       | (0.14) |

7.2.18. Based on the above analysis, the Authority proposed to consider the total Administrative & General Expenses for the First Control Period as under:

Table 4B: Administrative & General Expenses proposed to be considered by the Authority for the First Control Period

(₹ in crore)

| Particulars                                      | FY 2023-24 | FY 2024-25 | FY 2025-26 | FY 2026-27 | FY 2027-28 | Total  |
|--------------------------------------------------|------------|------------|------------|------------|------------|--------|
| Insurance Expenses                               | 0.12       | 0.18       | 0.19       | 0.20       | 0.21       | 1.00   |
| Security Expenses                                | 0.13       | 0.32       | 0.40       | 0.42       | 0.45       | 1.84   |
| Lease/Rental Expenses                            | 1.02       | 1.07       | 1.11       | 1.13       | 1.19       | 5.54   |
| Minor Administrative Expenses                    | 0.42       | 0.66       | 0.48       | 0.42       | 0.44       | 2.34   |
| Total Expenses as per AIRRA (A)                  | 1.82       | 2.23       | 2.18       | 2.19       | 2.29       | 10.73  |
| Total Admin. & General Expenses as per BPCIL (B) | 1.82       | 2.19       | 2.19       | 2.38       | 3.57       | 11.48  |
| Variance (C) = (A-B)                             | -          | (0.16)     | (0.09)     | (0.19)     | (0.28)     | (0.72) |

### C. Repairs & Maintenance Expenses

7.2.19 The Authority noted that BPCIL had projected total Repair & Maintenance Expenses of ₹ 2.48 crore, which includes ₹ 0.29 crore related to the firefighting expenses for the First Control Period.

7.2.20 It was noted that BPCIL has projected ₹ 0.88 crore annual R&M expenses for the FY 2023-24, which include expenses related to a replacement of cockleins, consumables, spares such as filters, tyres, pumps etc. in respect of eleven (11) refuellers supplied by BPCIL from Jodhpur station to Mopa Goa, for supply of ATF to the aircraft, during the period when Fast Turn Facility & Hydrogen System was under construction (which later got commissioned & operationalised in February, 2024).

Apart from the above, R&M Expenses in FY 2023-24 include various spares and consumables, examples of spares, diesel, etc. for the smooth operations of Fast Turn Facility and ATF Services.

7.2.21 Further, in response to AIRRA query on estimated cost of R&M expenses related to refuellers supplied to Mopa, Goa airport on temporary basis, BPCIL vide email dated 24.01.2024 submitted that in FY 2023-24, an amount of ₹ 0.42 crore was spent on the repair & maintenance of the Refuellers supplied from the other stations and remaining ₹ 0.46 crore is related to the other routine repair & maintenance expenses.

For the FY 2024-25, BPCIL had projected 7% increase in repair & maintenance expenses, besides 10% Y-o-Y increase had been proposed by Air BPCIL for the remaining tariff years of the First Control Period.

7.2.22 The Authority proposed to consider actual Repair & Maintenance expenses amounting to ₹ 0.14 crore for the FY 2023-24, including R&M Expenditures related to the Refuellers shifted to Goa airport from other stations, as submitted by the ISP.

For the FY 2024-25, the Authority proposed to consider 6% increase in R&M Expenses over previous year (6% normal increase and 10% one-time increase on account of maintenance of Fuel Farm and FHS facilities operationalised from February, 2024), after factoring in the non-recurring expenses ₹ 1.42 incurred in FY 2023-24 on the 11 nos. of refuellers shifted by BPCL from other stations to Mangalore airport, Goa.

From FY 2025-26 onward, 9% Y-o-Y normal increase in R&M Expenses had been proposed for the remaining eight years of the First Control Period.

7.2.23 **Fire Fighting Expenses** – Fire Fighting expenses is another component under the R & M Expenses. The Authority noted that ISP had assessed ₹ 0.29 crore as firefighting expenses for the First Control Period which includes ₹ 0.04 crore actual firefighting expenditure incurred in FY 2023-24. BPCL had projected ₹ 1.16 crore as firefighting expenses for the FY 2024-25, after considering one-time expenditure of ₹ 0.05 crores, based on the recommendations of inspection of facility after the inspection of the Fuel Farm facility. Therefore, ISP had projected 10% Y-o-Y increase in firefighting expenses for the remaining eight years (FY 2025-25 to FY 2027-28) of the First Control Period.

Considering that firefighting expenses are necessary for the safety of fuel farm operations from fire hazards and consideration of fire safety norms, therefore, the Authority proposed to consider firefighting expenses for the First Control Period as proposed by the ISP. However, 10% normal Y-o-Y increase in firefighting expenses considered by the BPCL, seemed to be on the higher side, therefore, the Authority proposed to reduce the normal Y-o-Y increase at 6% on account of expected increase in prices due to general inflation etc., from FY 2026-25 onward during the First Control Period.

The firefighting expenses proposed to be considered by the Authority for the First Control Period is as under:

**Table 49: Fire Fighting expenses proposed by the Authority for the First Control Period**

*(In crores)*

| Particulars                      | FY 2023-24 | FY 2024-25 | FY 2025-26 | FY 2026-27 | FY 2027-28 | Total  |
|----------------------------------|------------|------------|------------|------------|------------|--------|
| As submitted by BPCL (A)         | 0.04       | 0.10       | 0.05       | 0.05       | 0.04       | 0.28   |
| As proposed by the Authority (B) | 0.04       | 0.09       | 0.04       | 0.04       | 0.05       | 0.26   |
| Variance (B-A)                   | -          | (0.01)     | (0.01)     | (0.01)     | (0.01)     | (0.03) |

In view of the above, total Repair & Maintenance Expenses proposed to be considered by the Authority for the First Control Period is as under:

**Table 56: Repair & Maintenance Expenses proposed by the Authority for the First Control Period**

(₹ in crore)

| Particulars                                                      | FY 2023-24 | FY 2024-25 | FY 2025-26 | FY 2026-27 | FY 2027-28 | Total  |
|------------------------------------------------------------------|------------|------------|------------|------------|------------|--------|
| As submitted by BPCL including firefighting expenses (A)         | 0.92       | 1.04       | 1.07       | 1.17       | 1.29       | 5.49   |
| As proposed by the Authority including firefighting expenses (B) | 0.92       | 0.72       | 0.71       | 0.73       | 0.88       | 3.92   |
| Variance (B-A)                                                   | -          | (0.32)     | (0.36)     | (0.42)     | (0.40)     | (1.57) |

#### **D. Utility Expenses:**

7.2.24 The Utility Expenses proposed by the BPCL consist of Water Charges, Electricity Charges & Fuel Consumption etc. BPCL had considered ₹ 4.44 crore as utility expenses for the first Control Period, which include actual expenses amounting to ₹ 0.93 crore incurred by the BP for the FY 2023-24.

BPCL had projected utility expenses for the FY 2024-25 amounting to ₹ 0.76 crore, which was 18% lower than the utility expenditures incurred in FY 2023-24. Thereafter, BPCL had projected 10% Y-o-Y increase in the utility expenditure for the remaining tariff years of the First Control Period, considering utility pricing, inflation, growth and inflation costs.

7.2.25 As per the license agreement, BP has to pay electricity & water charges to the Airport Operator, as per the rates as applicable to similar utility customers receiving substantially equivalent services.

As the Electricity, Water Supply & consumption of Fuel etc. is an essential operational requirement and utility expenses are payable based on the actual consumption, therefore, the Authority proposed to consider utility expenses as submitted by the BP for the FY 2023-24. However, the 10% Y-o-Y increase in utility expenses proposed by the BPCL from the FY 2024-25 seemed unrealistic. In light of this, therefore, the Authority proposed to rationalize the Y-o-Y increase in utility expenses to 0% for the remaining tariff years of the First Control Period.

However, the Authority would monitor the utility expenditures for the First Control Period, based on the actual figures relating to the consumption, tariffs and actual payments thereof.

The Utility Expenses proposed to be considered by the Authority for the First Control Period are as under:

**Table 51: Utility expenses proposed to be considered by the Authority for the First Control Period**

(₹ in million)

| Particulars                      | FY 2023-24 | FY 2024-25 | FY 2025-26 | FY 2026-27 | FY 2027-28 | Total  |
|----------------------------------|------------|------------|------------|------------|------------|--------|
| As submitted by BPCL (A)         | 0.93       | 0.76       | 0.84       | 0.81       | 1.02       | 4.49   |
| As proposed by the Authority (B) | 0.93       | 0.74       | 0.74       | 0.83       | 0.82       | 4.18   |
| Variance (B-A)                   | -          | (0.02)     | (0.09)     | (0.01)     | (0.14)     | (0.31) |

7.2.26 Based on the analysis and rationalization of various components of Operation & Maintenance Expenditure as above, the total Operation and Maintenance (O&M) Expenditure proposed to be considered by the Authority for the First Control Period is detailed in the table given below:

**Table 52: Operation and Maintenance (O&M) Expenditure proposed to be considered by the Authority for the First Control Period at Consultation Stage**

(₹ in million)

| Particulars                              | FY 2023-24 | FY 2024-25 | FY 2025-26 | FY 2026-27 | FY 2027-28 | Total |
|------------------------------------------|------------|------------|------------|------------|------------|-------|
| Employee & Operational Manpower Expenses | 4.41       | 4.67       | 5.37       | 5.70       | 6.04       | 26.89 |
| Administrative & General Expenses        | 1.95       | 2.23       | 2.10       | 2.19       | 2.29       | 10.73 |
| Repair & Maintenance Expenses            | 0.03       | 0.72       | 0.71       | 0.73       | 0.81       | 3.82  |
| Utility Expenses                         | 0.93       | 0.74       | 0.70       | 0.83       | 0.88       | 4.18  |
| Total Operation & Maintenance Expenses   | 8.38       | 8.77       | 8.97       | 9.48       | 10.02      | 45.42 |

7.2.27 The major reasons for variance in the O&M Expenses proposed by the Authority and as considered by the BPCL are as under:

- Proposed yearly increase of 4% on Employee & Operational Manpower Expenses in place of 10% increase considered by the BPCL, resulting in reduction of the Expenses by ₹ 2.31 crore.
- Proposed yearly increase of 3% on Administrative & General Expenses in place of 10% increase considered by the BPCL, resulting in reduction of Utility Expenses by ₹ 0.72 crore.
- Proposed yearly increase of 0% on Utility Expenses in place of 10% increase considered by the BPCL, resulting in reduction of Utility Expenses by ₹ 0.51 crore.

- (iv) Disallowance of R&M expenses pertaining to Outboard Refuelling in the FY 2024-25 due to commissioning of TDS and consideration of 4% increase in T+V basis instead of 10% proposed by the ISP, resulting in reduction of ₹ 1.33 crores.

**7.3 Stakeholders' Comments regarding Operation & Maintenance (O&M) Expenditure for the First Control Period**

- 7.3.1 EPCL's comment with regard to Operation & Maintenance (O&M) Expenditure is as follows:  
*"The Operator respectfully requests that the authority undertake a wrap-up of the Operation and Maintenance (O&M) expenses based on the actual expenditures incurred at the time of tariff determination for the next Control Period. This would ensure alignment with the principle of cost-reflective tariff determination and ensure regulatory consistency."*

**7.4 Authority's analysis on Stakeholders' comments regarding Operation & Maintenance (O&M) Expenditure for the First Control Period**

- 7.4.1 The Authority notes the comments of the Stakeholders' regarding Operation & Maintenance (O&M) Expenditure. In this regard, the Authority is of the view that since the Tariff Determination for Fuel, Fuel & Idle Hours Services has been undertaken under the Cost Plus Approach, the regulatory building Model shall be used up at the time of determination of tariff for the Second Control Period, subject to circumstances and cost efficiency.

**7.5 Authority's decisions regarding Operation & Maintenance (O&M) Expenditure for the First Control Period**

Based on the material before it and its analysis, the Authority decides the following regarding Operation & Maintenance Expenses for the First Control Period:

- 7.5.1 To consider the Operation & Maintenance (O&M) Expenditure as per Table 32.  
7.5.2 To wrap up the Operation & Maintenance (O&M) Expenditure of the First Control Period at the time of tariff determination for the Second Control Period.

AERA

## 8. TAXATION FOR THE FIRST CONTROL PERIOD

### 8.1 BPCL's submission regarding Taxation for the First Control Period

8.1.1 BPCL had submitted the computation of Income tax based on the Profit Before Tax (PBT) which is arrived at after considering amortisation reserves, O&M expenses and depreciation computed separately for the purpose of tax. The computation of Income tax submitted by BPCL is as follows:

Table 5b: Taxation submitted by BPCL for the First Control Period

(₹ in crores)

| Particulars                         | Sl. No.        | FY 2022-23 | FY 2023-24 | FY 2024-25 | FY 2025-26 | FY 2026-27 | FY 2027-28 | Total |
|-------------------------------------|----------------|------------|------------|------------|------------|------------|------------|-------|
| Profit Before Tax                   | A              | -4.45      | 12.13      | 15.54      | 41.80      | 43.72      | 128.91     |       |
| Add: Book Depreciation              | B              | -3.71      | -0.04      | 6.12       | 6.15       | 6.31       | 6.31       | 26.47 |
| Less: IT Depreciation               | C              | 11.01      | 10.13      | 8.88       | 7.66       | 6.58       | 44.28      |       |
| Adjusted Profit                     | D = A + B - C  | -40.79     | 8.95       | 32.88      | 40.31      | 43.31      | 143.89     |       |
| Opening Losses                      | E              | -5.38      | -13.33     | -7.28      | -          | -          | -          |       |
| Set Off                             | F              | -304       | 8.95       | 7.28       | -          | -          | -          | 15.33 |
| Carry Forward of Accumulated Losses | G = E + F      | -5.33      | -7.28      | -          | -          | -          | -          |       |
| Taxable Income                      | H = D - F      | -          | -          | 25.60      | 40.31      | 43.31      | 143.89     |       |
| Tax as per IT ACT                   | I = H * 25.17% | -          | -          | 6.44       | 16.18      | 18.96      | 27.49      |       |

### 8.2 Authority's Examination regarding Taxation proposed for the First Control Period at Consultation Stage

8.2.1 The Authority noted that BPCL had proposed corporate tax for the First Control Period after considering tax @ 25.17% on the projected amortisation reserves.

8.2.2 The Authority had re-computed the amortisation tax based on the amortisation reserves worked out as per its ARR computation proposed for the First Control Period, as given in the chapter 9.

The following table summarises the amortisation tax proposed by the Authority for the First Control Period.

**Table 54: Agricultural Tax proposed by the Authority for the First Control Period at Consultation Stage**

(₹ in crores)

| Particulars                                                         | FY 2023-24 | FY 2024-25 | FY 2025-26           |                      | FY 2026-27 | FY 2027-28 | Total  |
|---------------------------------------------------------------------|------------|------------|----------------------|----------------------|------------|------------|--------|
|                                                                     |            |            | 8994<br>(15.97.2023) | 9441<br>(16.07.2023) |            |            |        |

### **8.3 Stakeholders' Comments regarding Taxation for the First Control Period**

8.3.1. The comments were received from the Stakeholders regarding Taxation for the First Control Period.

### **8.4 Authority's analysis on Stakeholders' comments regarding Taxation for the First Control Period**

8.4.1. The Authority notes that no comments were received from the Stakeholders regarding Taxation for the First Control Period. However, based on the revised Agricultural Revenue computed by the Authority for the First Control Period as per the revised AGR determined by

the AERA for the First Control Period, the Authority has incorporated the Aeronautical Taxation for the First Control Period. The same has been detailed in the table below:

**Table 55: Aeronautical Tax levied by the Authority for the First Control Period**

(₹ in crores)

\*As per Table 40

## 8.5 Authority's decision regarding Aeronautical Tax for the First Control Period

Based on the incurred revenue and its analysis, the Authority decides the following, with regard to Taxation for the First Control Period:

- 8.5.1. To consider the Aeronautical Tax for the First Control Period as amount of 30PL for Muz, Goa Airport as per Table 55.
- 8.5.2. To set up the Aeronautical Tax of the First Control Period at the time of next determination for the Second Control Period.

## 9. AGGREGATE REVENUE REQUIREMENT (ARR) FOR THE FIRST CONTROL PERIOD

9.1 BPCL's submission regarding Aggregate Revenue Requirement (ARR) for the First Control Period for BPCL.

9.1.1 The BPCL submitted ARR for the First Control Period as per its projections for the regulatory holding blocks as given in the table below:

Table 5b: Aggregate Revenue Requirement (ARR) submitted by BPCL for the First Control Period

(₹ in crores)

| Particulars                         | B.C.          | FY 2023-24 | FY 2024-25       |                  | FY 2025-26 | FY 2026-27 | FY 2027-28 | Total  |
|-------------------------------------|---------------|------------|------------------|------------------|------------|------------|------------|--------|
|                                     |               |            | Apr'24 to Sep'24 | Oct'24 to Mar'25 |            |            |            |        |

| Return on Security Deposit          | I             | 5.32       | 2.40             | 2.46             | 5.30       | 5.32       | 5.22       | 26.69  |
| Aggregate Revenue Requirement (ARR) | J = Sum (C-I) | 24.16      | 16.92            | 18.51            | 46.53      | 51.58      | 32.96      | 216.66 |

9.1.2 BPCL for the ARR computation is requested for First Control Period had considered actual figures for the three and half years i.e. FY 2021-22 and projection for the remaining half years.

In addition to ARR as per the above table, BPCL had separately claimed shortfall for the period from 01.01.2023 to 31.03.2023 amounting to ₹ 8.77 crores (NPV as on 31.03.2023). Further, the 'M' had also made stand-up ARR amounting to ₹ 40.08 crores for the period from 01.04.2023 to 30.09.2024 and has claimed shortfall i.e. Target Revenue amounting to ₹ 25.83 crores (NPV as on 31.03.2025) for this period.

**9.2 Authority's examination regarding Aggregate Revenue Requirement (ARR) for the First Control Period at Consultation Stage**

9.2.1. The Authority had computed ARR for the First Control Period after detailed review of each regulatory building block and after considering AERA's proposals for various building blocks as discussed in the previous chapters. Apart from the regulatory building blocks, AERA had also considered the following components separately while computing ARR for the First Control Period:

9.2.2. **Return on Security Deposit (RSD):** It was noted that as per the concession agreement, BPCL paid ₹ 38 crore to Airport Operator as security deposit and has claimed 14% return on the Security deposit, in line with the return claimed as Cost of Equity.

The Authority is of the view that 14% return on security deposit claimed by BPCL is on the higher side, as an investment purpose is served by the deposit of ₹ 38 with Airport Operator. However, in the process, substantial sum of the ISP is getting blocked for significantly longer duration due to contractual arrangement between the ISP and the AO. In order to reflect the amount in the value of the funds, MCAI due to the impact of annual general inflation, the Authority proposed to consider overall return on security deposit @ 8% per annum (as against 14% proposed by BPCL), which is consistent with the AERA's approach in this regard for the ISPs.

9.2.3. **Revenue Share:** The Authority noted that as per the concession agreement, BPCL is required to pay 15 % of Gross Revenue from Fast Term Facilities and 5% of Gross Revenue from the ITF Facility & Services as 'Revenue Share' to the Airport Operator. The Authority observed that revenue share is payable to AO as per the Concession Agreement which is linked to the projected Gross Revenues from the Fast Term Facility & ITF Services.

Accordingly, the Authority proposed to consider revenue share, based on projected Revenues for the First Control Period, as indicated by the Authority under the Chapter 10 (Aeromarine Revenue) of this Consultation Paper.

**Table 57: Revenue Share payable to AO estimated by the Authority for the First Control Period at Consultation Stage** (in crore)

| Particulars                           | Ref. | FY<br>2023-24 | FY<br>2024-25 | FY<br>2025-26 |           | FY<br>2026-27 | FY<br>2027-28 | Total |
|---------------------------------------|------|---------------|---------------|---------------|-----------|---------------|---------------|-------|
|                                       |      |               |               | 4.4%          | 6.0%      |               |               |       |
|                                       |      |               |               | 1587.2079     | 1681.2027 |               |               |       |
| Fast Term Revenue                     |      |               |               |               |           |               |               |       |
| Revenue from Fast Term Facilities Fee | A    | 8.08          | 7.87          | 2.87          | 12.96     | 24.08         | 28.53         | 83.78 |

|                           |            |      |      |      |      |      |      |       |
|---------------------------|------------|------|------|------|------|------|------|-------|
| Revenue Share @ 15%       | B = A*15 % | 8.91 | 1.38 | 0.48 | 1.94 | 3.70 | 6.45 | 12.87 |
| Into Phase Services       |            |      |      |      |      |      |      |       |
| Revenue from ITP Services | C          | 3.18 | 4.50 | 1.13 | 3.10 | 3.08 | 9.41 | 23.48 |
| Revenue Share @ 5%        | D = C*5%   | 0.17 | 0.22 | 0.06 | 0.24 | 0.15 | 0.47 | 1.07  |
| Total Revenue Share       | E = D+B    | 1.08 | 1.61 | 0.54 | 2.12 | 4.15 | 4.96 | 14.24 |

\*Replacement of certain Tarp Rates is considered w.e.f. 16.07.2023

9.2.4. Return on the Dead Stock: The Authority noted that BPCL had considered a Capex amounting to ₹ 2.84 crore in respect of the 3.20 lakh Bero ATF stored in the Fair Average Tanks & FTS as deadstock in the FY 2023-24. In order to compensate the ISP on account of increase in the value of money locked as 'dead stock' due to general inflation etc., the Authority proposed to consider a notional interest/return @ 5% per annum separately on the dead stock amounting to ₹ 2.84 crore, while computing ABR for the First Control Period (refer para 5.2.7 for details).

9.2.5. Based on the above, the Authority proposed to be operational ABR for the First Control Period as presented in the table given below:

Table 3B: Aggregate Revenue Requirement (ARR) proposed by the Authority for the First Control Period at Consultation Stage

(₹ in crores)

| Particulars                                        | S/L       | FY      |         | FY                |                   | FY     | FY     | Total |

| PV of ARR                                           | N=L*M          | 21.83 | 25.94 | 6.49 | 16.69  | 11.69 | 21.19 | 111.87 |
| Sum of PV of ARR                                    |                |       |       |      | 112.87 |       |       |        |

9.2.6. The Authority had compared the ARR for BPCL in respect of its First Control Period at ₹ 143.23 crores (NPV ₹ 112.87 crores) as on 31.03.2024, as against ₹ 216.46 crores projected by the BPCL. The major reasons of variance between ARR proposed by the Authority and as considered by the BPCL, are as under:

- Determination of ETRR by the Authority @ 12.21% as against 14.00% obtained by BPCL, resulting in reduction of Return on BGL amounting to ₹ 8.79 crores.
- Proposed 1% Return on Security Deposit in place of 14% Return considered by the BPCL, resulting in reduction of Return on Security Deposit amounting to ₹ 12.10 crores.
- Rationalization of O&M expenses like Flyover expenses, Administration & General expenses, R&M Expenses etc, amounting to ₹ 4.45 crores.
- Reduction in tax on the rationalization of unutilized cover as it expenses, based on the ARR proposed by the Authority.
- BPCL has proposed Dividend amounting to ₹ 2.84 crores as part of R&M and claimed ETRR thereon @ of 14%, whereas the Authority proposed a return @ 1% per annum.

## 9.3 Stakeholders' Comments regarding Aggregate Revenue Requirement (ARR) for the First Control Period

9.3.1 BPCL's comments with regard to Return on Security Deposit is as under:

*"The Operator respectfully submits the following in relation to the Authority's decision to allow only a nominal return of 1% on the Security Deposit placed with the Airport Operator:*

#### **(ii) Nature and Treatment of Security Deposit**

The Security Deposit was a mandatory precondition for the award of Post-Term operation at Durgam Airport. Accordingly, it represents a blocked capital amount and is not available to the Operator for deployment in capital expenditures or operational purposes. But this amount being utilized towards capital expenditure, the Operator would have earned a return at the rate of the Four Rate of Return (FRR) applicable to the project. Even if retained as a fund deposit, the Operator would have earned a return aligned with prevailing fixed deposit interest rates. Therefore, retaining the return on such a significant blocked-in capital at a nominal 2% does not reflect the opportunity cost or funds at the commercial realities faced by the Operator.

#### **(iii) Precedent in Other AERA Tariff Orders**

It is further submitted that while the Authority has considered only a nominal return for the present case, it has allowed a higher return on receivable security deposits in other airport tariff determinations. Specifically, AERA has granted security deposits as a form of debt capital while computing the weighted average cost of capital (WACC) or return for airport operations. In alignment with the judgment of the Telecom Disputes Settlement and Appellate Tribunal (TDSAT) in the case of Delhi International Airport Limited (DIAL).

Relevant excerpts from past Orders are as follows:

#### **• DIAL – Third Control Period (Order No. 57/2020-21)**

Para 3.3.1(iii)

"Refundable Security Deposit (RSD) raised by the airport operator to fund the Project cannot be a zero-cost debt. Its cost needs to be internalised and made available to the airport operator through appropriate fiscal credits at the time of next tariff redetermination."

Para 3.5.12

"Authority proposed to consider return on ESD as equivalent to the cost of debt, consistent with the proposed... regarding true-up of WACC for the First Control Period."

Para 3.7.15

"Accordingly... as of the time that the airport were brought from zero cost financing the DIAL was able to raise from Non-Financial Assets... Accordingly, the Authority has decided to consider the cost of ESD as equivalent to the actual cost of debt at 8.25% for the Second Control Period."

#### **• CHL – Third Control Period (Order No. 58/2021-22)**

Para 7.2.7

"Since the ESD of INR 130 crores deposited by the first term operator was utilized by CHL for the creation of assets, the Authority proposed to provide a return on ESD at the cost of debt in line with the judgment of TDSAT in the case of DIAL."

*Para 7.2.5:*

*"Irrecoverable security deposits are treated as debt, since were effectively included in the national pooling ratio of 40% and hence did not require any separate treatment."*

*These provisions affirm the principle that Security Deposits, when locked and not available for use by the operator, warrant a return commensurate with the cost of debt.*

*In view of the above substantiated and consistent with the Authority's past practice and the jurisprudence established by TISA1, the Operator respectfully requests that the return on the Security Deposit be allowed at the prevailing cost of debt. Specifically, the Operator proposes that such return be determined based on the one-year Margined Cost of Funds based Lending Rate (MCLLR) of the State Bank of India, as has been adopted by the Authority in other tariff orders for computing the national cost of debt."*

**9.4 Authority's analysis on Stakeholders' comments regarding Aggregate Revenue Requirement (ARR) for the First Control Period**

- 9.4.1 The Authority notes the comments of BPCL with respect to Return on Security Deposit @ 5%. In this regard, the Authority is of the view that Refundable Security Deposit (RSD) in case of the Airport Operator (AO) is not similar to EO's case, as AO had raised monies by giving RSD and using it for operational purposes. Whereas, in case of BP (BPCL), interest free Security Deposit has been paid by BP to AO, and outflow of the funds are not utilized for any operational services' purposes. Notwithstanding the above, AERA has considered return interest on SD @ 5% which is close to return on FDs presently given by banks, so as to cover the erosion in the value of funds locked in form of SD due to inflation etc.

Considering the above, AERA maintains the same position with regard to Return on SD, as was proposed at Consultation Stage and decides to consider return on SD @ 5%.

- 9.4.2 Based on the changes in the Billing Process done by the Authority in the relevant chapters, the Authority has restructured the Revenue Share payable to the Airport Operator and the Aggregate Revenue Requirement (ARR) for the First Control Period is presented below.

AERA

Table 59: Revenue Share payable to AO estimated by the Authority for the First Control Period

(Rs. crores)

| Taxation<br>per Table 37                        | F                  | -     | -     | -     | -     | -     | -     | -      |
| Price Paid Under<br>Escrow<br>per Table 21      | G                  | 1.84  | -     | -     | -     | -     | -     | 1.84   |
| Revenue Share<br>payable to AO<br>per Table 38  | H                  | 1.88  | 1.07  | 0.62  | 1.18  | 1.13  | 3.71  | 18.83  |
| Finance cost on RAB                             | I                  | 0.003 | 0.003 | 0.001 | 0.005 | 0.003 | 0.006 | 0.02   |
| Return on Debtstock<br>(ATY)<br>per Para 9.2.6  | J                  | 0.01  | 0.14  | 0.07  | 0.07  | 0.14  | 0.14  | 0.58   |
| Return on Security<br>Deposit<br>per Para 9.2.7 | K                  | 1.90  | 1.90  | 0.95  | 0.93  | 1.89  | 1.90  | 8.56   |
| Aggregate Revenue<br>Requirement<br>(ARR)       | L= Sum<br>(C to K) | 22.44 | 27.72 | 13.84 | 14.25 | 29.43 | 29.79 | 137.63 |
| Discount Factor<br>(@ 7.25%)                    | M                  | 1.89  | 0.89  | 0.74  | 0.79  | 0.71  | 0.64  |        |
| PV of ARR                                       | N=L/M              | 22.44 | 24.74 | 18.61 | 11.48 | 20.90 | 14.79 | 109.38 |
| Sum of PV of ARR                                |                    |       |       |       |       |       |       | 109.39 |

Note: Variance in ARR of Order Stage 2015-19 CP Stage is mainly on account of reduction in Revenue Share payable to AO up to 3.42 across due to drop in proposed and benchmark for the First Control Period by 21% in order stage and increase in Depreciation due to shifting of base of computation of CAPX accounting to 1.11.21 Costs from February 2024 to June 2025.

### 9.5 Authority's decision regarding Aggregate Revenue Requirement (ARR) for the First Control Period

Based on the material before it and its analysis, the Authority decides the following with regard to ARR for the First Control Period:

- 9.5.1 To compute ARR in respect of DSC for the First Control Period as per Table 60.
- 9.5.2 To ring up the ARR of the First Control Period as the base of tariff determination for Second Control Period.

## 10. AERONAUTICAL REVENUE FOR THE FIRST CONTROL PERIOD

### 10.1. BPCL's submission on Aeronautical Revenue for the First Control Period

10.1.1 As per BPCL submission, the projected Aeronautical Revenue for the First Control Period is given in Table below:

Table 41: Projected Aeronautical Revenue as per BPCL (from IT & ITP services) for First Control Period

(in crores)

| Particulars                    | FY 2023-24 | FY 2024-25 | FY 2025-26 | FY 2026-27 | FY 2027-28 | Total  |
|--------------------------------|------------|------------|------------|------------|------------|--------|
| Revenue from IT & ITP services | 9.32       | 31.71      | 59.63      | 67.90      | 71.29      | 240.85 |

10.1.2 The projected Aeronautical Revenue for the First Control Period amounting to ₹ 240.85 crores by BPCL includes aerial revenue i.e. ₹ 9.32 crores for the FY 2023-24 (First tariff year).

### 10.2. Authority's Examination of Revenue Projected for the First Control Period at Consultation Stage

10.2.1 The Authority noted that BPCL had projected Aeronautical revenue for the First Control Period amounting to ₹ 240.85 crores, after considering the following tariff increase:

Table 42: Tariff rates (ITF & ITP services) proposed by BPCL for First Control Period

(in crores)

| Sl. No.                                    | Particulars of Service                | Existing rate per KL | Proposed rate per KL w.e.f. 01.10.2024 |
|--------------------------------------------|---------------------------------------|----------------------|----------------------------------------|
| 1                                          | Fuel Induction and Fuel               | 700                  | 717.01                                 |
| 2                                          | Line Plane Charges/ Aircraft Handling | 400                  | 721.26                                 |
| <b>Total ITF &amp; ITP Service charges</b> |                                       | <b>1100</b>          | <b>4338.27</b>                         |

10.2.2 It was noted that BPCL had sought one-time increase of 44.25% in respect of Fuel Induction and Fuel and an increase of 80.31% for ITP charges, which is translating into a combined increase of 57.53% in total charges i.e. ₹ 4338.27 KL (ITF & ITP charges) over the prevailing rate of total charges i.e. ₹ 1100 KL. The (M) is its proposal had considered implementation of revised tariff effective from 01.10.2024.

10.2.3 The Authority, based on its ABR comparison for the First Control Period (refer Table 38), proposed the following tariff in respect of ITF & ITP services:

**Table 63: FIP & ITP Charges proposed by the Authority for First Control Period at Consultation Stage**

(Rs in Lakhs per Annum)

| Sl. No. | Particulars                          | Existing Rate | FY 2025-26<br>(w.e.f. 16.07.2025) | FY 2026-27 | FY 2027-28 |
|---------|--------------------------------------|---------------|-----------------------------------|------------|------------|
| 1.      | FIP Proposed                         | 700.00        | 1390.00                           | 1575.00    | 1600.00    |
|         | % increase proposed                  |               | 98.57%                            | 13.37%     | 1.56%      |
| 2.      | ITP Charges                          | 600.00        | 600.00                            | 600.00     | 600.00     |
|         | % increase proposed                  |               | 0%                                | -          | -          |
| 3.      | Combined Charges (FIP & ITP Charges) | 1100.00       | 1990.00                           | 2255.00    | 2400.00    |
|         | Combined % increase                  |               | 80.9%                             | 13.07%     | 6.22%      |

10.2.4 Based on the above proposed % increase in tariff, the Authority proposed to consider the total recovery from the Assesment Services for the First Control Period as shown in the table given below:

**Table 64: Assesment Revenue proposed by the Authority (From FIP & ITP services) for First Control Period at Consultation Stage**

(Rs in Lakhs)

| Particulars                                                                      | Bd.   | FY 2023-24 | FY 2024-25 | FY 2025-26 |          | FY 2026-27 | FY 2027-28 | Total   |

| Current FIP & ITP Charges (w.e.f.)                                               | D     | 100.00     | 100.00     | 1100.00    | 1100.00  | 1100.00    | 1100.00    |         |
| Total revenue (Refer table 22)                                                   | E     | 698.61     | 1125.64    | 1116.49    | 1119.49  | 1116.66    | 1070.69    | 6370.69 |
| FIP Revenue at current Tariff (w.e.f.)                                           | F=DE  | 8.95       | 12.21      | 6.28       | 10.20    | 56.35      | 71.28      | 76.88   |
| Revised FIP & ITP Rates after proposed Tariff increase (w.e.f.) (Refer table 63) | G     | 100.00     | 1300.00    | 1990.00    | 1990.00  | 2255.00    | 2400.00    |         |

|                                               |        |      |       |      |       |       |       |        |
|-----------------------------------------------|--------|------|-------|------|-------|-------|-------|--------|
| Revised FIF & ITP Revenue                     | ₹447.0 | 8.32 | 41.37 | 8.38 | 48.35 | 31.65 | 38.96 | 317.26 |
| NPV of Revised Revenue from FIF & ITP Charges | ₹1918  | 9.32 | 1.02  | 1.37 | 14.71 | 21.87 | 24.36 | 87.88  |
| Carried Forward to next Control period        |        |      |       |      | 35.86 |       |       |        |

10.2.5 The Authority had proposed Aeronautical revenue (comprising of Fuel Infrastructure Tax and ITP Charges) for the First Control Period as per the above table, after considering Carry Forward of 23% of ARR for the First Control Period of 25.86 Crores in NPV terms as on 31<sup>st</sup> March 2024 to the next Control Period.

#### 10.3 Stakeholders' Comments regarding Aeronautical Revenue for the First Control Period

10.3.1 No comments received from the Stakeholders regarding the Aeronautical Revenue for the First Control Period.

#### 10.4 Authority's analysis on Stakeholders' comments regarding Aeronautical Revenue for the First Control Period

10.4.1 Based on the changes in the Holding Bills made by the AERA in the relevant chapters, after considering the Stakeholders' comments, the Authority has recomputed the FIF & ITP Charges and the Aeronautical Revenue for the First Control Period accordingly, as per the following table:

**Table 65: FIF & ITP Charges decided by the Authority for First Control Period**

(Value in ₹ per LIT)

| Sl. No. | Parameter                            | Existing Rate | FY 2025-26 (w.e.f. 01-01-2025) | FY 2026-27 | FY 2027-28 |
|---------|--------------------------------------|---------------|--------------------------------|------------|------------|
| 1.      | FIF Proposed                         | 700.00        | 1390.18                        | 1650.00    | 1880.00    |
|         | No increase proposed                 |               | 88.57%                         | 18.71%     | 13.84%     |
| 2.      | ITP Charges                          | 600.00        | 600.00                         | 600.00     | 600.00     |
|         | No increase proposed                 |               | 98%                            | -          | -          |
| 3.      | Combined Charges (FIF & ITP Charges) | 1300.00       | 1990.18                        | 2250.00    | 2480.00    |
|         | Combined % increase                  |               | 88.51%                         | 11.87%     | 15.22%     |

10.4.2 Based on the above % increase in the FIP and ITP Charges, the Authority has decided the Accrued Revenue for DPC1, in respect of the First Control Period, as presented in the table given below:

**Table 46: Accrued Revenue decided by the Authority (from FIP & ITP services) for First Control Period**

| Revised Revenue after Tariff increase                                      | H=G*E | 9.22          | 9.33          | 6.48                   | 6.66                   | 25.51         | 28.11         | 69.31  |
| NPV of revised Revenue                                                     | I=H*B | 9.12          | 8.15          | 4.84                   | 7.31                   | 18.30         | 16.47         | 56.15  |
| Carried forward to next Control period                                     |       |               |               |                        | 42.40                  |               |               |        |

10.4.3 The Authority decides to Carry Forward of 39% of ARR of the First Control Period (i.e. 42.42 Crores in NPV terms as on 31<sup>st</sup> March 2026) to the next Control Period, so as to avoid steep increase in the Accrued Charges for the next.

**10.5 Authority's Decision regarding Tariff Rates and Projected Aeronautical Revenue for the First Control Period**

Based on the material before it and its analysis, the Authority decides the following regarding Tariff Rates and Aeronautical Revenue for the First Control Period:

- 10.5.1 To consider the Tariff for aeronautical services (TIF & JTF Charges) in respect of BPCL, Mpsa, Goa for the First Control Period as per Table 62.
- 10.5.2 To consider Aeronautical Revenue for BPCL in respect of the First Control Period as per Table 63.
- 10.5.3 To Carry Forward 3% of ARII pertaining to the First Control Period to the Second Control Period.
- 10.5.4 To consider the up of Aeronautical Revenue of the First Control Period at the time of tariff determination for the Second Control Period.

## 11. SUMMARY OF AUTHORITY'S DECISIONS

The below mentioned summary provides the Authority's decisions relating to relevant chapters regarding the tariff determination for the First Control Period as reproduced below:

### Chapter 2: Methodology for tariff determination

- 2.2.1 To adopt "Cost Plus" Regulatory Approach for the Determination of Tariff in respect of the Fast Train & ITT Services pertaining to the First Control Period (FY 2023-24 to FY 2027-28).

### Chapter 3: Determination of Aggregate Revenue Requirement (ARR) for the period from 05.01.2023 to 31.03.2023

- 3.23.1 To consider Capital Additions as per Table 18.  
3.23.2 To consider Accrualised Depreciation as per Table 13.  
3.23.3 To consider F&S as per Table 15.  
3.23.4 To consider FR&T as per Table 16.  
3.23.5 To consider the O&M Expenses as detailed in Table 17.  
3.23.6 To consider ARR and Under Recovery as per Table 21 and to adjust the shortfall in the ARR of the First Control Period.

### Chapter 4: Fuel Throughput (Volume) for the First Control Period

- 4.5.1 To consider the Fuel Throughput Forecast for the First Control Period in respect of BPCIL, at Mogeth, Guwahati as per Table 11.  
4.5.2 To fine tune the Fuel Throughput in respect of the First Control Period, based on the actual Fuel Throughput, at the time of tariff determination for the Second Control Period.

### Chapter 5: Capital Expenditure, Depreciation and Regulatory Asset Base (RAB) for the First Control Period

- 5.3.1 To consider Capital Additions to RAB as per Table 24.  
5.3.2 To consider Depreciation as per Table 34.  
5.3.3 To fine tune the Capital Expenditure, based on actuals, at the time of determination of tariff for Second Control Period, subject to cost efficiency and reasonableness of capex incurred.  
5.3.4 To consider RAB and Average RAB as per Table 26.  
5.3.5 To fine tune the RAB and Average RAB considering the actual figures, at the time of tariff

**Determination for the Second Control Period**

**Chapter 6: Fair Rate of Return (FRR) for the First Control Period**

- 6.5.1 To consider FRR as per Table 36.

**Chapter 7: Operation and Maintenance (O&M) Expenditure for the First Control Period**

- 7.5.1 To consider the Operation & Maintenance (O&M) Expenditure as per Table 37.  
7.5.2 To true up the Operation & Maintenance (O&M) Expenditure for the First Control Period at the time of tariff determination for the Second Control Period.

**Chapter 8: Taxation for the First Control Period**

- 8.5.1 To consider the Assessed Tax for the First Control Period in respect of BPCL, for Mags, Gas airport as per Table 38.  
8.5.2 To true up the Assessed Tax of the First Control Period at the time of tariff determination for the Second Control Period.

**Chapter 9: Aggregate Revenue Requirement for the First Control Period**

- 9.5.1 To consider ARR in respect of BPCL for the First Control Period as per Table 40.  
9.5.2 To true up the ARR of the First Control Period at the time of tariff determination for Second Control Period.

**Chapter 10: Assessed Revenue for the First Control Period**

- 10.5.1 To consider the Tariff Rates for occasional services (IP & IIP Charges) in respect of BPCL, Mags, Gas for the First Control Period as Table 62.  
10.5.2 To consider Assessed Revenue for BPCL in respect of the First Control Period as per Table 66.  
10.5.3 To Carry Forward 75% of ARR pertaining to First Control Period to the Second Control Period.  
10.5.4 To consider true up of Assessed Revenue of the First Control Period at the time of tariff determination for the Second Control Period.

## 12. ORDER

Upon careful consideration of the material before it, the Authority, in exercise of powers conferred by Section 13(1)(a) of the Airport Economic Regulatory Authority of India Act, 2008, hereby orders that:

- (i) The Fuel Turn and Into Plane services provided by BPCL at Mumbai International Airport, Goa for the First Control Period, is deemed as 'Not Material and Not Competitive'. Accordingly, the Authority has determined Tariff for the First Control Period in respect of BPCL, at Mumbai International Airport, Goa under the 'Price Cap Approach'.
- (ii) BPCL is allowed to levy the revised Tariff for the Fuel Turn and Into Plane Services in respect of the First Control Period (FY 2023-24 to FY 2025-26) with effect from 01.04.2025 as per the Annexure-I.
- (iii) Tariff determined hereunder is the maximum Tariff to be charged to Customers. No other charge(s) is to be levied over and above the approved Tariff rates.
- (iv) The Tariff rates approved hereunder are excluding of all applicable taxes.
- (v) M/s BPCL, at the end of each tariff year shall submit Annual Compliance Statement (ACS), including actual cost/loss accounts, as per the entire Guidelines.
- (vi) The Airport Operator to publish approved Tariff Rates for BPCL, Mumbai Goa in per litre Order at its official website for the information of all Stakeholders.
- (vii) The Airport Operator shall ensure the compliance of this Order.

By the Order of and in the Name of the Authority

  
(Sayed Saifur)  
Secretary

To,  
Shri Sujit Kumar,  
Marketing Manager (Aviation) HQ,  
BPCL, Aviation Business Unit, 'A' Installation, Scheme Part Road,  
Survee (East), Mumbai-400 055.
